This grayscale coloring book for adults contains 24 paintings of adorable baby animals by artist Ruth Sanderson. These pictures of kittens, puppies, and bunnies have been carefully converted to grayscale from her various children's picture books. There are two complete sets of the images included, for a total of 48 pictures to color. One set of images is lighter and one is darker, so you can explore your grayscale coloring preference. Colored pencils work beautifully over grayscale images and help give realism and depth to the final colored image. This book has fairly simple images, so it is an excellent choice for adults just beginning to learn to color grayscale, as well as more advanced colorists. Relax and enjoy coloring these sweet baby animals! The pictures are printed single-sided on 55# pure white paper.
