The ETF Book

"I want to make it clear before we start what the title represents. Everything You Need To Know, But Have Never Been Told does not refer to all that people need to know in terms of information and knowledge. How could you put that between two covers? Religious books claim to do this but they are works of self-delusion and perceptual imprisonment. Everything You Need To Know in this case refers to the information necessary to open entirely new ways of thinking and perceiving reality, both in the seen and unseen, from which everything else will come. This book is a start not a finish. It is written in layers with information placed upon information that together reveals the picture by connecting the parts. The parts are fascinating, but the picture is devastating. Prepare for a perception reboot]] "

Everything You Need to Know to Feel Go(o)d is Candace Pert's response to the questions she's been asked in her worldwide travels ever since the publication of her book *Molecules of Emotion*, and her appearance in the film *What the Bleep Do We Know?!* She discovered that, at the end of the day, all people really want to know is how to feel good. Within these pages, Dr. Pert shares the answers she's found, both in the biomedical laboratory of mainstream science and in the laboratory of her own evolving life. Her amazing journey documents how mind, body, and spirit cannot be separated; and that we're hard-wired for bliss, which is both physical and divine. Feeling good and feeling God, she believes, are one and the same. From beginning to end, this book takes us on an entertaining romp through the many bodymind avenues, separating the woo-woo from real science and pointing the way toward using new paradigm therapies, detoxing our food and environment, forgiving and healing our relationships, understanding depression, staying young, and creating the reality we want to experience. Consciousness, mind, emotions, and God are all factored into the mix, resulting in a lot of beneficial advice and self-development insights that will empower us toward health, well-being, and feeling . . . Go(o)d.
