1,000 Places to See Before You Die

The world's bestselling travel book is back in a more informative, more experiential, more budget-friendly full-color edition. A #1 New York Times bestseller, 1,000 Places reinvented the idea of travel book as both wish list and practical guide. As Newsweek wrote, it "tells you what's beautiful, what's fun, and what's just unforgettable— everywhere on earth." And now the best is better. There are 600 full-color photographs. Over 200 entirely new entries, including visits to 28 countries like Lebanon, Croatia, Estonia, and Nicaragua, that were not in the original edition. There is an emphasis on experiences: an entry covers not just Positano or Ravello, but the full 30-mile stretch along the Amalfi Coast. Every entry from the original edition has been readdressed, rewritten, and made fuller, with more suggestions for places to stay, restaurants to visit, festivals to check out. And throughout, the book is more budget-conscious, starred restaurants and historic hotels such as the Ritz, but also moderately priced gems that don't compromise on atmosphere or charm. The world is calling. Time to answer.

The beautifully illustrated and utterly absorbing biography of one of the twentieth century's most transfixing artists Frida is the story of one of the twentieth century 's most extraordinary women, the painter Frida Kahlo. Born near Mexico City, she grew up during the turbulent days of the Mexican Revolution and, at eighteen, was the victim of an accident that left her crippled and unable to bear children. To salvage what she could from her unhappy situation, Kahlo had to learn to keep still so she began to paint. Kahlo 's unique talent was to make her one of the century 's most enduring artists. But her remarkable paintings were only one element of a rich and dramatic life. Frida is also the story of her tempestuous marriage to the muralist Diego Rivera, her love affairs with numerous, diverse men such as Isamu Noguchi and Leon Trotsky, her involvement with the Communist Party, her absorption in Mexican folklore and culture, and of the inspiration behind her unforgettable art.

Perfect for the anti-aviary (or bird fanatic with a sense of humor), this snarky illustrated handbook is equal parts profane, funny, and—let's face it—true. Featuring 50 common North American birds, such as the White-Breasted Butt Nugget and the Goddamned Canada Goose (or White-Breasted Nuthatch and Canada Goose for the layperson), Kracht identifies all the idiots in your backyard and details exactly why they suck with humorous, yet angry, ink drawings. Each entry is accompanied by facts about a bird's (annoying) call, its (dumb) migratory pattern, its (downright tacky) markings, and more. With migratory maps and tips for birding, plus musings on the avian population and the ethics of birdwatching, this is the essential guide to all things wings. No need to wonder what all that racket is anymore!

Net Art Anthology aims to represent net art as an expansive, hybrid set of artistic practices that overlap with many media and disciplines. To accommodate this diversity of practice, Rhizome has defined "net art" as "art that acts on the network, or is acted on by it." Rhizome prefers the term "net art" because it has been used more widely by artists than "internet art," which is more commonly used by institutions, or "net.art," which usually evokes a specific mid-90s movement. The informality of the term "net art" is also appropriate not only to the critical use of the web as an artistic medium, but also informal practices such as selfies and Twitter poems.

The battle between boys and bots is on in this funny, fast-paced novel. Ken is an EngiNerd: one of a super-smart group of friends—all nerds—who have been close since kindergarten. They may be brainiacs, but they're just like everyone else: they fight with one another, watch too much TV, eat Chinese food, and hate walking their dogs. Well, maybe not just like everyone because Ken's best friend Dan has been building robots. He then secretly sent one to each of the EngiNerds, never letting them know he's the mastermind. At first Ken is awed and delighted: what kid hasn't dreamed of having a robot all their own? Someone who can be their friend, clean their room, walk the dog, answer homework questions...how amazing is that? But be careful what you wish for: Dan's robot, Greeeg, may look innocent, but his ravenous consumption of food—comestibles—turns him into a butt-blasting bot. And once the other robots 'come alive' it's up to the motley crew of EngiNerds to not only save the day, but save the planet!

Works by Prosek and others are juxtaposed with natural objects in an illuminating interrogation of the artificial boundaries we create between art and nature Award-winning artist, writer, and naturalist James Prosek (b. 1975) has gained a worldwide following for his deep connection with the natural world, which serves as the basis for his art and numerous popular books. In this cross-disciplinary catalogue, Prosek poses the question, What is art and what is artifact—and to what extent do these distinctions matter? Drawing on the collections of the Yale University Art Gallery and the Yale Peabody Museum of Natural History, Prosek places man- and nature-made objects on equal footing aesthetically, suggesting that the distinction between them is not as vast as we may believe. In more than 150 full-color plates, objects such as a bird's nest, dinosaur head, and cuneiform tablet are juxtaposed with Asian handscrolls, an African headdress, modern masterpieces, and more. Artists featured include Albrecht Dürer, Helen Frankenthaler, Vincent van Gogh, Barbara Hepworth, Pablo Picasso, and Jackson Pollack, as well as Prosek himself, whose works depict fish, birds, and endangered wildlife. Also included are an incisive essay by Edith Devaney and texts by Prosek that explore the magnificent productions of our wondrous interconnected world.

And its alphabetical arrangement by author assures that surprises await on almost every turn of the page, with Cormac McCarthy and The Road next to Robert McCloskey and Make Way for Ducklings, Alice Walker next to Izaak Walton. There are nuts and bolts, too—best editions to read, other books by the author, “if you like this, you’ll like that” recommendations, and an interesting endnote of adaptations where appropriate. Add it all up, and in fact there are more than six thousand titles by nearly four thousand authors mentioned—a life-changing list for a lifetime of reading. “948 pages later, you still want more!” —THE WASHINGTON POST

#1 NEW YORK TIMES BESTSELLER • The author of *Small Great Things* returns with a powerful and provocative new novel about ordinary lives that intersect during a heart-stopping crisis. “Picoult at her fearless best . . . Timely, balanced and certain to inspire debate.”—*The Washington Post* The warm fall day starts like any other at the Center—a women’s reproductive health services clinic—its staff offering care to anyone who passes through its doors. Then, in late morning, a desperate and distraught gunman bursts in and opens fire, taking all inside hostage. After rushing to the scene, Hugh McElroy, a police hostage negotiator, sets up a perimeter and begins making a plan to communicate with the gunman. As his phone vibrates with incoming text messages he glances at it and, to his horror, finds out that his fifteen-year-old daughter, Wren, is inside the clinic. But Wren is not alone. She will share the next and tensest few hours of her young life with a cast of unforgettable characters: A nurse who calms her own panic in order to save the life of a wounded woman. A doctor who does his work not in spite of his faith but because of it, and who will find that faith tested as never before. A pro-life protester, disguised as a patient, who now stands in the crosshairs of the same rage she herself has felt. A young woman who has come to terminate her pregnancy. And the disturbed individual himself, vowing to be heard. Told in a daring and enthralling narrative structure that counts backward through the hours of the standoff, this is a story that traces its way back to what brought each of these very different individuals to the same place on this fateful day. One of the most fearless writers of our time, Jodi Picoult tackles a complicated issue in this gripping and nuanced novel. How do we balance the rights of pregnant women with the rights of the unborn they carry? What does it mean to be a good parent? *A Spark of Light* will inspire debate, conversation . . . and, hopefully, understanding. Praise for *A Spark of Light* “This is Jodi Picoult at her best: tackling an emotional hot-button issue and putting a human face on it.”—*People* “Told backward and hour by hour, Jodi Picoult’s compelling narrative deftly explores controversial social issues.”—*Us Weekly*
