Becoming a Woman of Substance

A NEW YORK TIMES BESTSELLER! The first memoir for young readers by sports legend Kareem Abdul-Jabbar. At one time, Lew Alcindor was just another kid from New York City with all the usual problems: He struggled with fitting in, with pleasing a strict father, and with overcoming shyness that made him feel socially awkward. Remaining and Becoming

The poet and visual artist Mina Loy has long had an underground reputation as an exemplary avant-gardist. Born in London of mixed Jewish and English parentage, and a much photographed beauty, she moved in the pivotal circles of international modernism—in Florence as Gertrude Stein's friend and Marinetti's lover; in New York as Marcel Duchamp's co-conspirator and Djuna Barnes's confidante; in Mexico with the greatest love, the notorious boxer-poet Arthur Cravan; in Paris with the Surrealists and Man Ray. Carolyn Burke's riveting, authoritative biography, *Becoming Modern*, brings this highly original and representative figure wonderfully alive, in the process giving us a new picture of modernism—and one woman's important contribution to it.

The World's Best Orations

A New York Times-bestselling author looks for the meaning of a good life by seeking advice from the very young and the very old. When his first book tour ended, Brad Montague missed hearing other people's stories so much that he launched what he dubbed a Listening Tour. First visiting elementary schools and later also nursing homes and retirement communities, he hoped to glean new wisdom as to how he might become a better grownup. Now, in this playful and buoyant book, he shares those insights with rest of us --timeless, often surprising lessons that bypass the head we're always stuck in, and go straight to the heart we sometimes forget. Each of the book's three sections begins with the illustrated story of "The Incredible Floating Girl." Brad weaves this story together with lessons of success, fear, regret, gratitude, love, happiness, and dreams to reveal the true reason we are here: to fly, and to help others fly. Beautifully designed and featuring Montague's own whimsical 4-color illustrations that appeal to the kid in all of us, *Becoming Better Grownups* shares the purpose and meaning we can all discover merely by listening, and reveals that--in a world that seems increasingly childish--the secret to joy is in fact to become more childlike.

Becoming Myself

To be human is to be in relationships. We can't survive without them but it's in relationships that we can so easily get unravelled. Some relationships just seem to do us in. Either we feel like we lose ourselves or feel burnt out from futile efforts to make things right for another. In our relationships we can experience the very best of ourselves and the very worst. The message of Growing Yourself Up is that you can't separate understanding the individual from understanding relationships. All of life's relationships are integral to increasing self-awareness and maturity. And it's not necessarily the comfortable relationships that promote personal growth. In this 2nd edition of the bestselling book, Jenny examines how to help others without fostering dependency, and how to determine what kind of help you or others want from therapists. This is in response to the many lay and professional people who have found this book valuable personally and want to know how to help others grow. Drawing from Bowen family systems theory, the book takes you on a journey through each stage of life to see predictable patterns of relationships and to show how to use this knowledge to make purposeful adjustments in yourself; as well as lending a mature helping hand to others. The result is a sturdier self, sturdier relationships and a refreshing new way to view life's challenges and opportunities.

Being a Rockefeller, Becoming Myself

A pioneering philanthropist and daughter of American royalty reveals what it was like to grow up in one of the world's most famous families. The great-granddaughter of John D. Rockefeller, Eileen Rockefeller learned in childhood that while wealth and fame could open any door, they could not buy a feeling of personal worth. The privileges of having servants and lavish summer homes were offset by her parents' thoughtful yet firm lessons in social obligation, at times by her mother's dark depressions and mercurial moods, and the competition for attention among her siblings. In adulthood, Rockefeller has yearned to be seen not as an icon but as a woman and mother with a normal life, and like all of us, she had to learn to find her own way. Being a Rockefeller, Becoming Myself is an affirmation of how family shapes our identity and the ways we contribute to the larger family of life, regardless of our origins.

God has dreams—just for you *Becoming Myself* is a hope-filled book for anyone who wonders if her life will ever change—if she will ever change. In Stasi Eldredge's most intimate book yet, she shares her own struggles with self-worth, weight, and her past as she shows readers how God is faithfully unveiling who we truly are. Stasi urges you to lay down your past thoughts about yourself and receive God's incredible dreams for you instead. We cannot heal ourselves. We cannot become ourselves by ourselves. But we are not by ourselves. The King of love wants to help us become. God desires to restore us—the real us. As he heals our inner life, he calls us to rise to the occasion of our lives. The most important journey any woman can take is the journey into becoming her true self through the love of God. It's a beautiful paradox. The more of God's you become, the more yourself you become—the "self" he had in mind when he thought of you before the creation of the world. Discover your truest self—the woman God created you to be—in *Becoming Myself*.

How to Grow Up

Becoming Me is a fairytale about a girl from Sheffield. She's statistically average, but not necessarily ordinary. Since being a young girl, she has pondered how she fits into the world, discovering herself along the way, desperate to remember who she was, not who she had become. She had conformed to the programme that her father and the rest of society had expected her to follow, and that made her ill. At forty, she emerged as a dragonfly from her old life, desperate to break free from the system and live a simple life, free of consumerism. Her dream: to be self-sustaining; tend the land and look after animals. After being made redundant from the NHS, moving a three bedroomed house into her van, she escaped to rural Portugal with her husband, never planning to return. Becoming Me is about a girl everyone can relate to, because she's real. She still has her dream and is more determined than ever to fulfil her life's purpose. You will cry and laugh out loud at her life's ups and downs, in a world without mercy.

Becoming Mexipino is a social-historical interpretation of two ethnic groups, one Mexican, the other Filipino, whose paths led both groups to San Diego, California. Rudy Guevarra traces the earliest interactions of both groups with Spanish colonialism to illustrate how these historical ties and cultural bonds laid the foundation for what would become close interethnic relationships and communities in twentieth-century San Diego as well as in other locales throughout California and the Pacific West Coast. Through racially restrictive covenants and other forms of discrimination, both groups, regardless of their differences, were confined to segregated living spaces along with African Americans, other Asian groups, and a few European immigrant clusters. Within these urban multiracial spaces, Mexicans and Filipinos coalesced to build a world of their own through family and kin networks, shared cultural practices, social organizations, and music and other forms of entertainment. They occupied the same living spaces, attended the same Catholic churches, and worked together creating labor cultures that reinforced their ties, often fostering marriages. Mexipino children, living simultaneously in two cultures, have forged a new identity for themselves. Their lives are the lens through which these two communities are examined, revealing the ways in which Mexicans and Filipinos interacted over generations to produce this distinct and instructive multiethnic experience. Using archival sources, oral histories, newspapers, and personal collections and photographs, Guevarra defines the niche that this particular group carved out for itself.

LGBTQ kids reveal what it's like to be young and queer today *Growing Up Queer* explores the changing ways that young people are now becoming LGBT-identified in the US. Through interviews and three years of ethnographic research at an LGBTQ youth drop-in center, Mary Robertson focuses on the voices and stories of youths themselves in order to show how young people understand their sexual and gender

identities, their interest in queer media, and the role that family plays in their lives. The young people who participated in this research are among the first generation to embrace queer identities as children and adolescents. This groundbreaking and timely consideration of queer identity demonstrates how sexual and gender identities are formed through complicated, ambivalent processes as opposed to being natural characteristics that one is born with. In addition to showing how youth understand their identities, *Growing Up Queer* describes how young people navigate queerness within a culture where being gay is the “new normal.” Using Sara Ahmed’s concept of queer orientation, Robertson argues that being queer is not just about one’s sexual and/or gender identity, but is understood through intersecting identities including race, class, ability, and more. By showing how society accepts some kinds of LGBTQ-identified people while rejecting others, *Growing Up Queer* provides evidence of queerness as a site of social inequality. The book moves beyond an oversimplified examination of teenage sexuality and shows, through the voices of young people themselves, the exciting yet complicated terrain of queer adolescence.

Growing up to Be a Child

Being an Adult Baby is not what anyone would choose – if such a choice were even possible. While we can enjoy some of the aspects of being ABDL, the strong desires and unquenchable drive to regress and to become as if we were infants again, is uncomfortable, confusing and for many, quite disturbing. But we are not given this choice. It is instead, imposed upon us during the misty, unknowable times of our actual infancy and it leaves us craving a return back to that spot in our history when we were real babies. In this book, Dylan Lewis explores self-acceptance and self-image by addressing who we are inside and the conflicts and failures that have made us who we are. He then leads us on a journey to finding a path back to wholeness. If you are an Adult Baby, this is an ABSOLUTE MUST for your library.

The Wonder of Becoming You

Remaining and Becoming: Cultural Crosscurrents in an Hispano School deals with the politics of identity and the concept of boundaries during a time of rapid change. It investigates how the role of schooling for Hispanos in the Norteño School District (a pseudonym) in Northern New Mexico--a public school district, not fully consolidated until 1972--has changed significantly over the past three generations. Today, the Hispanos, a minority in the outside world but a majority in their own, are debating how the functions of the school should respond to the changes resulting from the coming of public education to their region. But the contemporary story of education in Norteño has much deeper roots in the political, religious, and cultural history of Northern New Mexico--a region where, over a period of several centuries, Spain, Mexico, and the United States each have claimed sovereignty, with differing goals for and attitudes about the welfare of the people. This study is an analysis of the ambiguity of education, the losses and gains that are its consequences, the lingering doubts about the past, and the questions about what future education can and should serve. It is about asking: Is what the students are learning worth as much as what they are forgetting? How does schooling affect the evolving process of asserting, renegotiating, and defending an Hispano identity? By exploring historical factors and ideologies of a particular school within a particular community, Roberts seeks to understand community expectations for the school as a fitting place for its children. The goal is not to generalize from the particular to the universal, but to join others in suggesting that we move away from discussing students in a generic sense and focus instead on looking at them in relation to the community in which they live. The fascinating and largely unknown story this book tells will be of interest to educators, researchers, and students across a range of fields, including sociology of education, educational anthropology, multicultural education, ethnic studies, Chicano studies, and qualitative research in education.

Growing Yourself Up

This book, written by a consultant paediatrician, offers unique perspectives on child development and parenting, and on Christian life and discipleship. In it, Dr Sidebotham interweaves his own professional observations and understanding of the processes of child development with a very personal engagement with his daughter as she grows, reflections on his role as a father, and on his own journey of faith. Dr Sidebotham looks at a child's development from the point of view of the Shema prayer: love the Lord your God with all your heart, soul, mind, and strength. He uses that as a basis to explore what it might mean for Christian disciples to become like a little child. The personal nature of the book is a winner. It is generous and inclusive. A lovely book. Elaine Storkey, President of Tear Fund A beautiful and worthy book. Readers will find this a delight to read. Scott Bessenecker, Associate Director of Missions, InterVarsity Christian Fellowship A beautiful account of a father's love for his daughter, weaving the spiritual, personal and professional into a testimony of God's abundant gift of life in all its fullness: moving and inspiring. Keith Sinclair, Bishop of Birkenhead
