Florida Gardener's Handbook

The magic of Paint by Sticker Kids continues, combining the fun of coloring and stickers with the creativity of paint by number. The series just keeps growing, with another much-loved nature-themed topic: Bugs! Paint by Sticker Kids: Beautiful Bugs includes everything kids need to create 10 full-color illustrations of their favorite creepy-crawlies: a firefly, a praying mantis, a ladybug, butterflies, ants, a painted grasshopper, a dragonfly, beetles, a bumblebee, and a weevil. Simply find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and watch a dazzling image come to life with color and spirit in the modern “low-poly” style (using geometric polygon shapes). The card-stock pages are perforated so artwork can be easily removed for framing or the fridge. Creating sticker art is as fun and meditative as coloring, and it’s a refreshing shake-up from the usual crayons and markers. Plus, the peel-and-place system allows kids to practice recognizing and learning numbers in an interactive, stress-free way. And it’s a great rainy day or travel activity (no cleanup!) that delivers hands-on fun for less than \$10.

Puppies in Pajamas

From StacyPlays, the YouTube sensation with over 2 million subscribers, comes the exhilarating fourth and final book in her Minecraft-inspired adventure series about a girl raised by wolves. After barely surviving the harsh tundra biome, Stacy has finally discovered the origins of the intelligent, playful wolves

who've raised her. But will Stacy be able to decode a mysterious diary that may hold the keys to her future in the taiga? As she races against time to uncover the secrets buried within the diary's pages, Stacy and her pack set out on a new thrilling adventure across biomes. Will they beat the clock and make it to the farthest reaches of their world: the deep ocean? As they dive deeper into the unknown, Stacy and the wolves learn that the deep ocean may hold the biggest secret yet. Stacy's wolves might not be as alone in this world as they once thought. Fans of *Minecraft: The Crash* and *PopularMMOs Presents: A Hole New World* will love this thrilling conclusion to the illustrated, action-packed series!

Brain Games - Sticker by Letter: Super Cute - 3 Sticker Books in 1 (Playful Pets, Totally Cool!, Magical Creatures)

Why do we do the things we do? Over a decade in the making, this game-changing book is Robert Sapolsky's genre-shattering attempt to answer that question as fully as perhaps only he could, looking at it from every angle. Sapolsky's storytelling concept is delightful but it also has a powerful intrinsic logic: he starts by looking at the factors that bear on a person's reaction in the precise moment a behavior occurs, and then hops back in time from there, in stages, ultimately ending up at the deep history of our species and its genetic inheritance. And so the first category of explanation is the neurobiological one. What goes on in a person's brain a second before the behavior happens? Then he pulls out to a slightly larger field of vision, a little earlier in time: What sight, sound, or smell triggers the nervous system to produce that behavior? And then, what hormones act hours to days earlier to change how responsive that individual is to the stimuli which trigger the nervous system? By now, he has increased our field of vision so that we are thinking about

neurobiology and the sensory world of our environment and endocrinology in trying to explain what happened. Sapolsky keeps going--next to what features of the environment affected that person's brain, and then back to the childhood of the individual, and then to their genetic makeup. Finally, he expands the view to encompass factors larger than that one individual. How culture has shaped that individual's group, what ecological factors helped shape that culture, and on and on, back to evolutionary factors thousands and even millions of years old. The result is one of the most dazzling tours de horizon of the science of human behavior ever attempted, a majestic synthesis that harvests cutting-edge research across a range of disciplines to provide a subtle and nuanced perspective on why we ultimately do the things we do for good and for ill. Sapolsky builds on this understanding to wrestle with some of our deepest and thorniest questions relating to tribalism and xenophobia, hierarchy and competition, morality and free will, and war and peace. Wise, humane, often very funny, *Behave* is a towering achievement, powerfully humanizing, and downright heroic in its own right.

The wire spiral and perforated pages make the book easy to use!

Paint by Sticker Kids

Paint by Sticker Kids just gets stronger and stronger, with the last three titles—*Unicorns & Magic*, *Halloween*, and *Christmas*—on fire. With over 1.7 million copies in print, and with sales increasing every season, it is the phenomenal activity book series that marries the joy of paint by number and coloring with every kid's favorite thing—stickers. And now add dinosaurs—what could be better? Kids will have a blast “painting” an armored Ankylosaurus, and an agile Velociraptor, now known to have been covered in feathers. And don't forget about the king of them all: a ferocious T-Rex, which could eat 500 pounds of

meat in one bite! New to the series, on the back of each image is a paragraph of lively text packed with facts about the dinosaur pictured, how it lived, and how to pronounce its name. Designed especially for children and their smaller hands, the Paint by Sticker Kids series offers a quiet, completely absorbing, no-mess activity that—bonus!—encourages kids to practice number recognition without them even thinking they're doing math. The way it works is simple: Find the numbered sticker, peel it, and place it in the right space. Add the next, and the next—and see the images come to life in the “low-poly” style that uses geometric shapes. The card-stock pages are perforated, allowing the artwork to be easily removed so kids can hang them up as decorations or proudly display them on the fridge. In other words, hours and hours of artistic fun with none of the hassle or cleanup!

The ideal graduation gift for anyone about to enter the workforce, a witty, practical guide to 200 difficult professional conversations—featuring all-new advice from the creator of the popular website Ask a Manager and New York’s work-advice columnist. There’s a reason Alison Green has been called “the Dear Abby of the work world.” Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don’t know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You’ll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Advance praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “I am a huge

fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Clear and concise in its advice and expansive in its scope, *Ask a Manager* is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in).”—Sarah Knight, New York Times bestselling author of *The Life-Changing Magic of Not Giving a F*ck*

How can teachers make sure that all students gain the reading skills they need to be successful in school and in life? In this book, Karen Tankersley describes the six foundational "threads" that students need to study in order to become effective readers: phonemic awareness, phonics and decoding, vocabulary, fluency, comprehension, and higher-order processing. For each area, the author explains how students acquire the reading skills they need and offers a series of skill-building strategies and activities that teachers can use in the classroom. Although reading is perhaps most intensely taught in the kindergarten and 1st-grade classrooms, Tankersley emphasizes that helping students become lifelong readers is a task for all teachers, including content-area teachers in middle and high schools. The Threads of Reading addresses key questions about literacy, such as * What makes a difference in reading achievement? * How much reading time is enough? * How can teachers use writing to build reading skills? * How can teachers help students make meaning from their reading? The strategies in this book address many situations, from individual instruction to small- or large-group instruction, from kindergarten to high school. Teachers will appreciate the multitude of activities provided, and administrators will learn to better evaluate the reading programs in place in their districts and schools. Grounded in both research and "teacher lore" from actual classrooms, this book is a solid guide to helping students become lifelong readers.
