Making Other Plans

The author of the heartwarming Craig and Fred tells the deeply emotional and inspiring story of the next phase of their lives together: working closely with prison inmates in Maine who raise and train puppies to become service dogs. On their travels across America, former US Marine Craig Grossi and his devoted dog Fred

were invited to speak at Maine State Prison—the penitentiary that inspired Stephen King’s famous “Shawshank.” While there, he met a group of very special inmates, participants in a program run by the non-profit America’s Vet Dogs. Craig discovered that many of the prisoners are veterans—former soldiers serving their country in an entirely different way: transforming purebred Labrador Retrievers from floppy puppies into indispensable companions for disabled vets. These service dogs “literally and figuratively” open doors for men and women, offering hope and a renewed sense of freedom—“freedom that they lost as a result of trauma incurred defending our freedom,” Craig writes. Yet these disabled vets are not the only lives changed by these dogs. The inmates who train them “are given a purpose, they’re given experience, and most importantly they’re given a sense of self-worth,” Craig explains. “The men at Maine State are given a second chance—something that I believe everyone deserves.” For Craig, the visit had a profound impact. “There was something special going on inside its walls and it was calling out to me. I quickly realized that the program and its men had something to show the world.” In this emotionally powerful book, he introduces these men and challenges us to look deeper, to see them as human beings deserving of a new shot at life. “We’re quick to give second chances to celebrities, politicians and famous athletes when they screw up,” Craig reminds us, “but when it comes to those who’ve been convicted for their mistakes, we too often dismiss them as forever lost.” *Second Chances* poignantly shows that no life is irredeemable and that each of us can make a difference if given the opportunity.

A Letter to My Dog

An uplifting and unforgettable story of a US Marine, his extraordinary dog, and the road trip of a lifetime. "A beautiful, beautiful book." — Jenna Bush Hager When US Marine Rob Kugler returns from war he had given up not only a year of his life in service to his country, but he had also lost a brother in the fighting as well. Lost in grief, Rob finds solace and relief in the one thing that never fails to put a smile on his face: his chocolate lab Bella. Exceptionally friendly, and always with - you wouldn't believe it - a smile on her face, Bella is the friend Rob needs, and they spend their days exploring nature and taking photos. But then Bella develops a limp in her front leg. It's cancer, and the prognosis isn't good. Rob has a choice, either to let Bella go now, or amputate her cancer riddled leg, and see what the next few months would bring. For Rob, the choice is a no-brainer, and instead of waiting at home for the cancer to spread, Rob and Bella pack their bags and hit the road. Life is short, but the road ahead is long and winding, and as they criss-cross the country Rob and Bella meet remarkable, life-changing men and women who are quick to make friends with this incredible three-legged dog. *A Dog Named Beautiful* is a book full

"Eyes of a Chef" is not a cookbook. You won't find any recipes between its pages. What you will find is a look at Christ and the dynamic themes of Christianity through the lens of cookery and the kitchen. The book is more of a devotional than topical in nature. The book takes you on a parabolic journey where culinary tales and life experiences reflect the dynamic truth of Scripture. It is a journey into the realm of the culinary arts with our eyes turned upward, towards Christ and His kingdom. It is a look at Christ as well as creation. It is a buffet table full of little morsels, chapters to cause you to ponder upon the richness of all that Christ is, as seen through the eyes of a Chef. Each chapter is named after a Biblical concept or theme with the subtitle pointing to the culinary lens that illustrates that truth. Dive in and enjoy. I pray that the Lord will bless you as you sift through the issues of life.

A heartwarming story of a stray dog and a U.S. Marine who met under the unlikeliest circumstances in Afghanistan—and who changed each other’s lives forever. As part of an elite team of Marines, Craig Grossi was sent on his most dangerous assignment to the Sangin District of Afghanistan. He expected to face harsh conditions and violence from Taliban fighters. What he didn’t expect was to meet a stray dog, with a big goofy head and little legs—a dog all on his own, filthy and covered in bugs, in a bomb-ridden district, but who carried himself with confidence. And even though the Marines have a rule against approaching strays, Craig couldn’t help but offer some food and a pat—and was shocked when the dog wagged his tail. From that moment on, they were inseparable; whether out on missions or back at the base, the dog named Fred went along. When the time came for Craig to leave Afghanistan, he knew that Fred had to leave with him no matter what. And as Craig tried to get acclimated to civilian life, Fred was there for him. This book tells the inspiring story of two friends who ultimately rescued each other, and the stubborn positivity and love that continue to shape their world.

The naval planning for a Cuban contingency is analyzed through its actual implementation with the assistance of maps, intelligence reports, and troop deployments. This is the third book in 'The Journey' series which began with Craig's bestselling travel memoir JOURNEY TO A DREAM. After months of searching they eventually find their prize, a romantically appealing farmhouse in a ruinous condition. When the slow turning wheels of Spanish bureaucracy threaten to scupper their plans they're forced to hold their nerve. More adventures follow. A birthday surprise ends with Melanie in tears and a festive break to Lanzarote puts Jazz in a spin. Tasked with preparing their friends' house for holiday letting, Craig and Melanie find themselves in a race against time. Broken bones and blocked drains conspire to defeat their efforts. With confirmed reservations just weeks away, they have little choice but to soldier on. ghosts -- "of the Rhine," or otherwise -- to be spirited away into the all-too-real, flesh-and-blood, wartime experiences of this "tell it like it really was" author. Share the innermost feelings of an 18-year-old, "kidnapped" form his upper middle class family, taught to hate through the military's barbaric "Disorganization, Degradation and Dehumanization Program: (his terminology), and sent out by "them" as just another brainwashed sheep to kill and die for "his country." We're not dealing here with simply one more of the myriad "Flat-On-My-Back-At-10,000-Feet," or "Hell-in-a-Foxhole," repetitiously monotonous "war stories" memoirs. This is an adventure involving repeated unusual circumstances in a blitzkrieg of ever-changing scenery and situations, a "4 battle stars in 3 months" action drama bordering on fiction, yet each and every detail believably accurate. You don't have to be military-oriented, or any type of "armchair commando" to find a (male chauvinist pig) place for yourself among these pages. You'll discover circumstances which would've happened to you, personally, had you been there then, and which could still happen to you, even now, with the mere differences of perhaps time, place, and circumstance. As you'll see, none of "us" are invulnerable to the bloodthirsty greed of "them," past, present, or future. Who knows? This down-to-basics recounting of the sometimes-typical, sometimes-unbelievable situations which actually took place, may very well turn out to be a real-life "All Quiet on the Western Front" of the Second World War? . . . As the author dares, "Bite the bullet, take a chance, and find out for yourself!"

a haphazard collection of 'country files' there was no American equivalent to the 400-year-old British espionage establishment or the German Abwehr. No one in Washington was charged with putting the jigsaw puzzle of fact, rumor, and foreign innuendo together to see what pictures might develop or what portions might be missing. Even those matters of vital interest to policy makers remained uncoordinated, unevaluated, uninterrupted, and frequently in the wrong hands. That was in 1941. Four years later the scene was forever altered. The organization which achieved this dramatic turnabout was the Office of Strategic Services, better known by its initials: OSS. Headed by William J. Donovan, a World War 1 hero, Republican politician, and millionaire lawyer, the OSS infiltrated agents into every country of occupied Europe and raised guerillas armies in most. This book examines the small but representative role played by Marines assigned to this country's first central intelligence agency. In so doing, it provides the first serious attempt to chronicle a totally forgotten chapter of Marine Corps history.

Preliminary Evaluation of Advanced Air Bag Field Performance Using Event Data Recorders

This report describes a preliminary evaluation of the field performance of occupant restraint systems designed with advanced air bag features including those specified in the Federal Motor Vehicle Safety Standard No. 208 for advanced air bags, through the use of event data recorders. Although advanced restraint systems have been extensively tested in the laboratory, we are only beginning to understand the performance of these systems in the field. Because EDRs record many of the inputs to the advanced air bag control module, these devices can provide unique insights into the characteristics of field performance of air bags. This research program investigates the feasibility of using EDR data to evaluate advanced air bags. Specifically, this report discusses (1) the

development of an expanded EDR dataset based on data retrieved from NASS/CDS 2005, SCI, and CIREN in-depth crash investigations, (2) the validation of the accuracy of EDRs in full-scale crash tests, and (3) the feasibility of using EDRs to monitor the performance of advanced air bag restraints in real-world crashes.

Includes the booklet Narcissism "The Killer of Love" What could drive an individual who is emotionally strong and highly successful, with a hearty appetite for life, to suddenly lose all desire to live? What could possibly strip a religious person of all belief in God with the blink of an eye? Those vital questions are about to be answered. A Beautifully Disturbing Saga of Love and Survival. Within the throes of a madly passionate romance is the most ghastly soul rape and mind crime conceivable. The Great American "Psychopathic" Love Story exists in a world where nothing is real as perceived. Beneath the surface of what seems to be a fairy tale romance is the outline for what may very well be the perfect murder, and if you are naive enough to think it can't happen to you, you're wrong dead wrong. Steven lives a life that most can only dream of. At a young age, he achieved fame in the music industry with the now iconic heavy metal band Slayer, and later as a world-renowned airbrush artist. He has everything that a man could want, except for what he desires most, which is, true love. A handsome, successful, charming man that lives and breathes romance, but has been unable to find the one woman that can captivate his heart. One glorious afternoon, Ashley stumbles into his life, and she is everything that he's hoped for and dreamed of. Their story begins as a passionate, tender, and erotic tale of two people falling in love. Together they seem to have the love that dreams are made of and fairy tales are written about. But do they really? Sometimes when it seems too good to be true, the love of your life may not be the person you think they are. On the surface, Steven and Ashley are the quintessential portrait of an enchanted romance, but underneath an illusion of ideal love is a transparent layer of lies, manipulation,

and deceit. Unknowingly, Steven has become trapped in the lethal world of a pathological psychopath. Be prepared to have every one of your emotions assaulted by this unique true story. You will laugh, feel the passion and intense love, you'll get angry, experience excruciating pain, and yes, there will be tears. Live the story as the author experienced it. A memoir that is insanity in the raw, and just when you think it is all over, it begins again before leading to a shocking ending that will not soon be forgotten. Ghost of a Rose is the first romance of it's kind. Without any knowledge of its existence, the author documented from the beginning to end of his relationship with a pathological narcissist. The media has incorrectly portrayed Narcissistic Personality Disorder long enough. This is the true nature of the beast, and as melodramatic it may seem at times, this is what a victim experiences when having the life sucked out of him or her by an emotional vampire. You'll witness first hand the idealization "honeymoon" stage, the gaslighting phase, the abandonment, the torment, confusion, awakening, and healing as it all took place. Through the eyes of the author, you'll bear witness to a man systematically destroyed by a narcissist until his life is left in ruin. 'Dynamic personal stylized writing. Brilliant! THE MATERIAL in these studies has been given as lessons in Bible study classes, or sermons preached from the author's pulpit, through the course of many years. It has been brought together in this form that it might be a help to busy pastors and Bible teachers in their preparation of messages, and that it might be of practical and devotional value for all Bible students and Christian workers, who want to understand the rich teaching of Old Testament types.

The author does not claim to have exhausted the possible types of the Old Testament in these studies. But he has endeavored to deal with some sections of Scripture that without the typical approach would find little of practical application for the Christian today. For this reason the chapter dealing with types in Leviticus has been made the longest chapter in the book. We trust that that book of the Bible will mean more to the reader after studying this chapter. The study of the Tabernacle in the Wilderness from the typical viewpoint has always been a joy to the hearts of Bible students. But the author has discovered that a study of the typical truths of Solomon's Temple is equally valuable and precious. We suggest that Bible teachers give more attention to this neglected subject. These studies are of necessity fairly brief. Many Scriptures have been included that throw light on the particular subject. But the material herewith presented should be suggestive, and wise students of Scripture can add other details to what has been given. May the Lord use these studies to help many to understand and make practical application of Old Testament truth to the lives of modern-day Christians.

Do you feel like you struggle to make time for everything? We are living in a time-poor society, working more than ever and with less time for ourselves and family. The pressures and stress of the obligations we feel we have, often leave us without time to do everything that we would like to. More critically, we lack the time to reflect, review our lives and consider our direction. Time to contemplate if the decisions we are making are going to lead us to a life of purpose or an old age filled with regret. Time for Anything is based on 5 years of research by Craig D Robinson. Using the techniques in this book, Craig went from working in an entry level position to, in just four years: start 2 companies, recharge with 12 weeks holiday a year, start a family, grow and sell his startups and retire at the age of 34. This book shows you how you too can have time for it all.

When you're running for local office for the first time, there are plenty of mistakes you can make. The good thing is that you're not the first person ever to face the challenges of running for office - even though sometimes it might seem like it. In this book, Craig W. Turner collects stories, advice, warnings and best practices from local candidates from around the country who have been there and done that. They've already seen what you're about to see, and they've generously shared their experiences for the benefit of you and other first-time candidates for local office. This is no poli-sci class. This is "in the trenches" life experience. Everyone interviewed for this book as part of The Campaign Coach Podcast, has run and won at least one election. Some are now retired, some have moved on to higher office, and some are still serving in the capacity we discussed in their interview. In these pages, you will find insights that no guidebook or online course can give you - they will inspire you, and scare you, and motivate you and smack you in the face with a reality check. But, they will also make you a stronger candidate. Whether it's talking with voters, fundraising, understanding local government policy, promoting your candidacy or even knowing how to best serve your community, learning from these people's experiences - and avoiding mistakes that they've already made for you - will give you a leg up on any opponent.

If you are looking for a book that just repeats what hundreds of others already outline, then this book is not for you. This book is a memoir from the perspective of the victim as the mental and emotional abuse is taking place. It portrays the confusion that comes from abrupt abandonment and ostracization by a loved one. Through the victim's eyes, you will experience what it is to be "Gaslighted" by a narcissist, which is, idealization, discard, and devalue. When a narcissist is victimizing a person, the abused becomes someone they are not, and behave in ways out of the norm. Where some may view the behavior as childish or immature, it is actually a person fighting to hang onto his or her sanity. This is "Loving a Narcissist."

I could so relate though to the pain. Steven, I just finished reading your book "Loving a Narcissist" and I wanted to tell you how moved I was by your honesty and revealing your vulnerability. Reading it, I cried for you sometimes. Thank you for telling us your story. It doesn't

Pacific Marine Review

The uplifting and unforgettable true story of a US Marine, the stray dog he met on an Afghan battlefield, and how they saved each other and now travel America together, "spreading the message of stubborn positivity." In 2010, Sergeant Craig Grossi was doing intelligence work for Marine RECON—the most elite fighters in the Corps—in a remote part of Afghanistan. While on patrol, he spotted

a young dog "with a big goofy head and little legs" who didn't seem vicious or run in a pack like most strays they'd encountered. After eating a piece of beef jerky Craig offered—against military regulations—the dog began to follow him. "Looks like you made a friend," another Marine yelled. Grossi heard, "Looks like a 'Fred.'" The name stuck, and a beautiful, life-changing friendship was forged. Fred not only stole Craig's heart; he won over the RECON fighters, who helped Craig smuggle the dog into heavily fortified Camp Leatherneck in a duffel bag—risking jail and Fred's life. With the help of a crew of DHL workers, a sympathetic vet, and a military dog handler, Fred eventually made it to Craig's family in Virginia. Months later, when Craig returned to the U.S., it was Fred's turn to save the wounded Marine from Post-Traumatic Stress. Today, Craig and Fred are touching lives nationwide, from a swampy campground in a Louisiana State Park to the streets of Portland, Oregon, and everywhere in between. A poignant and inspiring tale of hope, resilience, and optimism, with a timeless message at its heart—"it is not what happens to us that matters, but how we respond to it"—Craig & Fred is a shining example of the power of love to transform our hearts and our lives.
