### **The Maternity of Mary, the Mother of God**

Raised in the hardy forest communities of British Columbia, scientist Suzanne Simard overturned conventional beliefs in proving that trees and plants are connected underground by an immense web of fungal mycelia, at the centre of which lie the Mother Trees: the mysterious, powerful entities that sustain the forest. Finding the Mother Tree is the story of a lifetime spent uncovering startling truths about trees: their perceptions, behaviours, healing capacities, language, memory and wisdom. Simard's landmark work has been immensely influential, revealing the complex cycle of forest life - on which we rely for our existence - and offering profound lessons about resilience and kinship.

The Sixth SIAM International Conference on Data Mining continues the tradition of presenting approaches, tools, and systems for data mining in fields such as science, engineering, industrial processes, healthcare, and medicine. The datasets in these fields are large, complex, and often noisy. Extracting knowledge requires the use of sophisticated, high-performance, and principled analysis techniques and algorithms, based on sound statistical foundations. These techniques in turn require powerful visualization technologies; implementations that must be carefully tuned for performance; software systems that are usable by scientists, engineers, and physicians as well as researchers; and infrastructures that support them.

The Church sees Mary as the "earthside of the Incarnation." In an attempt to understand the critical role she played in this great event, this book looks at her life as a young girl who said "yes" to an angel and brought God into the world. It begins with a discussion of her obedience as the pivotal point in our salvation. It continues with an examination of five aspects of her maternity - giving birth, nurturing, relinquishing, sorrow and joy. Our own lives parallel these stages in our conversion (giving birth), spiritual growth (nurturing), surrender to God (relinquishing), bearing our cross (sorrow) and the new life through the Resurrection (joy). Thus Mary can become our guide as we make our journey toward Christ. Further, by a focus on the humanity of Mary, we not only come closer to the mystery of the Incarnation but begin to grasp how the Church declared Mary to be the "Mother of God. This reverence receives strong emphasis in Orthodox Christianity. Questions for study and reflection follow the end of

ALL THE SONGBIRD NOVELS CAN BE READ AS STAND ALONE BOOKS. Cassie Grayson doesn't know how to be a mom. She's twenty-two and hardly in a position to care for a kid. But when her twelve-year-old nephew is dumped in her lap, she does the only thing she can: she takes him in. Neither of them have it easy as they try to navigate this unknown path. Cassie must deal with her feelings toward her estranged sister and her own rocky childhood growing up in the foster care system. Felix is still reeling from being uprooted from the only life he's ever known, and he doesn't connect with his weird, emotionless aunt. The only person who seems to breach the gap between them is Troy Baker, the counselor assigned to Felix. To Troy, Felix and Cassie should be just another case, but they're not. Something about the hopeless duo captures his heart, and in spite of his hesitation he finds himself falling for both of them. Felix's quiet strength is endearing, but it's Cassie's determination to not let her nephew down that chips away at his own walls, daring him to more than just help her but maybe fall in love as well. Can three strangers from completely different worlds create an unlikely family? Or are the hidden holes in their hearts too big to heal? ### **The Swiss Family Robinson**

Hawthorne's first published novel, Fanshawe combines romantic themes with an engaging look at college life in the early nineteenth century. Critics have noted that the novel has strong autobiographical components and is likely a thinly fictionalized account of the writer's own experiences as a student at Bowdoin College.

With humor and insight into what it is to be human, the author tells the story of her first 18 years growing up in a patriarchal society and religion in the mountains of Utah, and Ohio and New Jersey. A poetic storyteller, she brings the reader through her journey of finding meaning in her life and discovering her own humanity, free of the constraints of her origins. It is not simply a coming of age story, but a tale of transformation. "I learned to confront lies and injustice and fight for what I believe - not by good example, but by the absence of it. Witnessing the absurd, ridiculous and outrageous on a regular basis, I acquired a lifesaving taste for dark humor. My youthful experiences are the alchemist's lead. With focus and patience, I can transform them into gold. The rough, animal creature is purified and refined by the fire of an examined life to become more than it might otherwise have been - stronger, wiser, more human. The opportunity to embrace and grow from the lessons of my experiences is the gift of living a conscious life. I can learn from the choices - good and bad - of others and I can learn from my own. The capacity to laugh at myself came as an unexpected bonus when I started forgiving myself."

NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face

of total devastation. A New York Times Notable Book One of the Best Books of the Year The Boston Globe, The Christian Science Monitor, The Denver Post, The Kansas City Star, Los Angeles Times, New York, People, Rocky Mountain News, Time, The Village Voice, The Washington Post

### **Fanshawe**

On a moonlight drive I lost my dream. Jill was that dream. Why did I drive the car so fast? I knew the road was wet. Why did there have to be that big old tree waiting for us on the corner? And why did I live while she died? Each fine moment keeps coming back to me. Her face, that smile, her skin so soft and eyes so wild. I wake up to her husband at my bedside, holding my hand and crying. He knows nothing of our love. I will survive, he assures me. I can go home to my wife and children. See my parents again. Go back to my old job. Run and play sport again. I want none of this. Only Jill. I need to be with her. I need our love. I must escape this pain. I need another moonlight drive.

### **Finding the Mother Tree**

A world-leading expert shares her amazing story of discovering the communication that exists between trees, and shares her own story of family and grief. Dr. Suzanne Simard was born and raised in the rainforests of British Columbia and has forged a lifelong relationship of love and respect with the trees. This relationship was the driving force behind her decision to dedicate her life to better understanding the forest and the network that connects the plant life within. With humour, emotion, and the narrative drive of a lifelong storyteller, Dr. Simard takes readers on an intimate journey of groundbreaking scientific discovery. Linking her research to her personal experiences, she recounts her

life's work uncovering the "Wood Wide Web," the underground mycelium network that connects all the trees and plants within a forest. It is a network that allows them to share not only nutrients, but information, all of which originates from the hubs called Mother Trees. Readers will journey with Dr. Simard into this massive experiment, from dramatic encounters with wildlife to the groundbreaking "Aha" moments in a lab, from learning how to utilize this network to promote plant growth to what this network can teach us about combatting climate change. Dramatic, funny, touching, and evocative, Finding the Mother Tree offers an intimate and personal look at discovery. This book is not about how we can save the trees, but about how the trees might actually save us.

Fiddler's Ridge—dark, brooding, its ancient forest rarely disturbed by trespassers—was a dangerous place for fools. Young mill worker, Billy Paul Haferty was about to learn why. He was only looking for a bit of entertainment, he told himself as he climbed the ridge one evening. There was no harm in it, the well-beaten path he followed indicated that plenty of people had been here before him. When he reached his destination, a lonely cabin deep in the forest, he felt ridiculous explaining the purpose of his visit to the cold-eyed woman who lived there. She asked if he knew the cost of what he was seeking, and scoffed at the wad of bills he pulled from his pocket. "That paper don't have nothin' to do with you," she said. "Might as well toss it to the wind for all the value it's got to him who will help you." It was a warning, but he shrugged it off. Weeks later, as he lay in the woods waiting to die, he told himself he should have known better. A Being capable of giving him his heart's desire wasn't going to be satisfied with a boosted load of lumber or a case of shine as payment. He should have known it would cost him his soul.

the tree becomes her buddy and first learned connection, synonymous with home—and one spring morning, she makes a discovery under its boughs that foreshadows the many disconnections within her family, relationships, jobs, and home that are to come. Through the chapters in her life, Chadwick's search for home carries her through with unflinching honesty, but in the end, it is a story of survival and triumph over adversity. She does not wallow in self-pity but remains tenacious as she examines her life. An exploration of what it means to belong, *Under the Birch Tree* is a success story of finding home.

### **Finding the North Pole**

Long ago, the Morrigan, legendary Celtic goddess of war and death, foresaw a grim future for the human race, and she has watched and waited as the world has become tainted by excess and greed, finally blighting even her sacred space. Enraged, she vows to give humanity a world as desolate as their empty hearts, carpeted with their bones and blood. The Dagda, father of life, stays her hand temporarily and sends Tristan, an immortal Sidhe prince, to enlist the aid of two humans the Dagda knows well, although they've never given a thought to the possibility of his existence. History professor Brianna Sheffield's biologist husband Paul is a fugitive hiding on the Hopi reservation. Plagued by apocalyptic nightmares, Paul is reminded of Hopi prophecy by his cousin Bear: when man loses belief in himself and respect for the earth he inhabits, disaster will result. Uneasy, Paul heads home to Brianna, but their reunion is shortlived when Tristan tells them that indeed, the doomsday clock is ticking. A love story not only between people, but their devotion to the worlds they vow to protect, this is an epic fantasy adventure of what could happen when climate change and environmental degradation are intertwined with supernatural vengeance and a foretold fate. Provocative and timely, *A Summer Without Flowers* packs an unforgettable punch.

Ryan Laughlin and his wife, Deborah, have plans to move to a new city, find new jobs, and expand their family. But days before their move, a tragic mystery rips their plans and lives apart. As Ryan wakes one morning and finds that Deborah has inexplicably become a zombie, his life is thrown into a storm of loss and pain, a storm that continually haunts him with one question—if Deborah never came into contact with one of the undead, how did she ever become infected? This is the tale of Ryan's desperate search for the truth, and of his bloody battle to survive against insurmountable odds.

### **Goodnight Avery and the Moon, It's Almost Bedtime**

• Thoughtful exploration of midlife spirituality through the prism of nature walks • Study questions for each section Roger Owens, facing a “dark night of the soul” as he turned forty and entered midlife, was encouraged by his spiritual director to think of it instead as a “threshold of discovery.” Rather than go on a grand adventure like walking the Appalachian Trail or the Camino de Santiago, he decided to mark his fortieth year by taking forty walks in a nearby nature preserve. With patience and attention, he explored the concerns rising within him: the inevitability of death, his boredom with life, and the reality of his changing faith, changing images of God, and changing sense of self. The result is forty short chapters that weave together insightful stories of his walks with accessible history and practices of Christian spirituality and the lives of saints. This field guide to the spirituality of midlife facilitates readers’ personal journeys through questions of faith, purpose, and relationships. It is not solely a memoir, but a work of wisdom literature that uses engaging first-person narratives to explore universal themes and spiritual inquiry. Wise and imaginative, and with study questions for each section, Threshold of Discovery is the companion guide for a thoughtful Christian journey.

A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-traditional memoir, filled with alphabetical vignettes not chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my recollection of things past, and as in all recollections, the more distant the memory the clearer the details.

Draws on up-close-and-personal encounters with the plants themselves, as well as plant shamans, indigenous elders, and mystics from around the world and integrates these experiences with an incredible research journey and the groundbreaking scientific discoveries that emerged from it. Gagliano has published numerous peer-reviewed scientific papers on how plants have a Pavlov-like response to stimuli and can learn, remember, and communicate to neighboring plants. She has pioneered the brand-new research field of plant bioacoustics, for the first time experimentally demonstrating that plants emit their own 'voices' and, moreover, detect and respond to the sounds of their environments. By demonstrating experimentally that learning is not the exclusive province of animals, Gagliano has re-ignited the discourse on plant subjectivity and ethical and legal standing.

### **Exploring Misophonia**

This “extraordinary” novel of one man’s border crossing reveals “a human history of sorrow and suffering, all of it beginning with the thirst to be free” (NPR). Héctor is trapped. The water truck, sealed to hide its human cargo, has broken down. The coyotes have taken all the passengers’ money for a mechanic and have not returned. Héctor finds a name in his friend César’s phone: AnniMac. A name with an American number. He must reach her, both for rescue and to pass along the message César has come so far

to deliver. But are his messages going through? Over four days, as water and food run low, Héctor tells how he came to this desperate place. His story takes us from Oaxaca—its rich culture, its rapid change—to the dangers of the border, exposing the tangled ties between Mexico and El Norte. And it reminds us of the power of storytelling and the power of hope, as Héctor fights to ensure his message makes it out of the truck and into the world. Both an outstanding suspense novel and an arresting window into the relationship between two great cultures, *The Jaguar's Children* shows how deeply interconnected all of us are. "This is what novels can do—illuminate shadowed lives, enable us to contemplate our own depths of kindness, challenge our beliefs about fate.
