Irene Levin Berman was born, raised, and educated in Norway. Her first conscious recollection of life goes back to 1942, when as a young child she escaped to Sweden, a neutral country during World War II, to avoid annihilation. Germany had invaded Norway and the persecution of two thousand Norwegian Jews had begun. Seven members of her father's family were among the seven hundred and seventy-one unfortunate persons who were deported and sent to Auschwitz. In 2005, Irene was forced to examine the label of being a Holocaust survivor. Her strong dual identity as a Norwegian and a Jew led her to explore previously unopened doors in her mind. This is not a narrative of the Holocaust alone, but the remembrance of growing up Jewish in Norway during and after WWII. In addition to the richness of both her Norwegian and Jewish cultures, she ultimately acquired yet another identity as an American.

Milton and the Natural World

Many believe it is a matter of luck as to whether you are blessed with a baby who sleeps well or are landed with one who doesn't. It isn't. Beatrice Hollyer and Lucy Smith provide clear, sensible and effective advice on how to achieve peaceful, problem-free nights in Sleep - from the first days of infancy throughout childhood. Taking a cue from the baby, and working with their natural instinct, this book puts parents in charge. Avoiding conflict over sleep, this approach builds trust, communication and confidence in your relationship with your baby. Instead of a one-size fits-all approach, Hollyer and Smith

offer guidelines that can be adapted for each particular parent and baby. By understanding her needs, reading and responding to her signals and following her lead, you can strongly reinforce your baby's natural tendency to adapt to sleeping all night. Although focusing on establishing good sleep habits from the start of life, the principles put forward in this book can also be used to solve a sleep problem in a child of any age, usually in less than a week.

A System of Natural Philosophy

Lizzie Borden [1860-1927] was tried and acquitted for the 1892 axe murders of her father and stepmother in Fall River, Massachusetts. Speculation continues today about the sensational case that produced a famous nursery rhyme. Although she was acquitted, no one else was ever charged with the murders, and Borden lived out her life in Fall River. Compiled immediately after Borden's sensational trial, the author aims to provide "a connected story of the whole case, commencing with the day of the tragedy and ending with the day that Miss Borden was set free." He touches on such topics as the discovery of the murders, the adjournment of the preliminary hearing and some of the many theories that were advanced before any arrests were made. The book is handsomely illustrated with photos and line illustrations of the deceased, the accused, the jury and others. The author describes the book as: "A Plain Statement of the Material Facts Pertaining to the Most Famous Crime of the Century, Including the Story of the Arrest and Preliminary Trial of Miss LIZZIE A. BORDEN and a Full Report of the Superior Court Trial, With a Hitherto Unpublished Account of the Renowned Trickey-McHenry Affair Compiled from Official Sources and Profusely Illustrated with Original Engravings." Edwin H. Porter [1864-1904] was the Police Reporter for the Fall River Daily Globe and a correspondent for the Boston Herald. Accounts that he was paid to leave town and disappear after the book was published are incorrect. He continued as a reporter and was still employed by the Globe when he died of tuberculosis at age thirty-nine.

Curiosities of Natural History

Comprises articles on geology, paleontology, mammalogy, ornithology, entomology and anthropology.

Body and Soul

Have you ever considered going natural but thought it would be too hard? Try Going-Natural! Many of us are alienated from our stigmatized coils and have no clue what to do with our nappy hair. This book helps you reacquaint with your natural naps and shows you how to grow out a perm. But more than that, this book makes a joy out of what you thought would be a difficult journey. Find out ~ The best way for you to go natural ~ How to enjoy your journey ~ Why your hair is breaking ~ The basics of natural hair styling ~ How to grow and groom natural hair.

Annual Report - Geological and Natural History Survey of Minnesota

“ A fine mathematical biography. ” —John Allen Paulos, New York Times Book Review Just when we thought we knew everything about Lewis Carroll, here comes this “ insightful . . . scholarly . . . serious ” (John Butcher, American Scientist) biography that will appeal to Alice fans everywhere. Fascinated by the inner life of Charles Lutwidge Dodgson, Robin Wilson, a Carroll scholar and a noted mathematics professor, has produced this revelatory book—filled with more than one hundred striking and often playful illustrations—that examines the many inspirations and sources for Carroll ’ s fantastical writings, mathematical and otherwise. As Wilson demonstrates, Carroll made significant contributions to subjects as varied as voting patterns and the design of tennis tournaments, in the process creating large numbers of imaginative recreational puzzles based on mathematical ideas. Some images in this ebook have been redacted.

Bulletin of the American Museum of Natural History

Natural Gas and Gasoline Journal

Examines Paradise Lost's depiction of Eden in the light of contemporary scientific natural history.

'We Are Going to Pick Potatoes'

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)
