How to Cut Your Own Hair (Or Anyone Else's!)

The Outstretched Shadow, the first book in The Obsidian Trilogy from Mercedes Lackey and James Mallory Kellen Tavaddon, son of the Arch-Mage Lycaelon, thought he knew the way the world worked. His father, leading the wise and benevolent Council of Mages, protected and guided the citizens of the Golden City of the Bells. Young Mages in training--all men, for women were unfit to practice magic--memorized the intricate details of High Magic and aspired to seats on the council. Then he found the forbidden Books of Wild Magic--or did they find him? The three slim volumes woke Kellen to the wide world outside the City's isolating walls. Their Magic was not dead, strangled by rules and regulations. It felt like a living thing, guided by the hearts and minds of those who practiced it and benefited from it. Questioning everything he has known, Kellen discovers too many of the City's dark secrets. Banished, with the Outlaw Hunt on his heels, Kellen invokes Wild Magic--and finds himself running for his life with a unicorn at his side. Kellen's life changes almost faster than he can understand or accept. Rescued by a unicorn, healed by a female Wild Mage who knows more about Kellen than anyone outside the City should, meeting Elven royalty and Elven warriors, and plunged into a world where the magical beings he has learned about as abstract concepts are flesh and blood creatures--Kellen both revels in and fears his new freedom. Especially once he learns about Demons. He'd always thought they were another abstract concept--a stand-in for ultimate evil. But if centaurs and dryads are real, then Demons surely are as well. And the one thing all the Mages of the City agreed on was that practicing Wild Magic corrupted a Mage. Turned him into a Demon. Would that be Kellen's fate? Deep

in Obsidian Mountain, the Demons are waiting. Since their defeat in the last great War, they've been biding their time, sowing the seeds of distrust and discontent between their human and Elven enemies. Very soon now, when the Demons rise to make war, there will be no alliance between High and Wild Magic to stand against them. And all the world will belong to the Endarkened. Finance for Normal People teaches behavioral finance to people like you and me - normal people, neither rational nor irrational. We are consumers, savers, investors, and managers - corporate managers, money managers, financial advisers, and all other financial professionals. The book guides us to know our wants-including hope for riches, protection from poverty, caring for family, sincere social responsibility and high social status. It teaches financial facts and human behavior, including making cognitive and emotional shortcuts and avoiding cognitive and emotional errors such as overconfidence, hindsight, exaggerated fear, and unrealistic hope. And it guides us to banish ignorance, gain knowledge, and increase the ratio of smart to foolish behavior on our way to what we want. These lessons of behavioral finance draw on what we know about us-normal people-including our wants, cognition, and emotions. And they draw on the roles of these factors in saving and spending, portfolio construction, returns we can expect from our investments, and whether we can hope to beat the market. Meir Statman, a founder of behavioral finance, draws on his extensive research and the research of many others to build a unified structure of behavioral finance. Its foundation blocks include normal behavior, behavioral portfolio theory, behavioral life-cycle theory, behavioral asset pricing theory, and behavioral market efficiency.

Finance for Normal People

A leading American journalist travels to Nazi Germany in December 1939, arriving in wartime Germany where all the lights are blacked out in preparation for an English or French bombing campaign. T. Lothrop Stoddard's provocatively-titled book refers to the eerie experience he felt of first encountering this total blackout. *Into the Darkness* was the product of an assignment by the North American Newspaper Alliance company in which Stoddard was detailed to report on wartime conditions in Nazi Germany-at a time before the US became involved in the war. Stoddard was not unknown in Germany. Due to his leading work in the areas of racial history, racial science and eugenics in America, he was granted unprecedented access to the inner workings of the National Socialist government and provided the first-and possibly only-accurate, unbiased account of German racial policy ever written by a non-German writer. Stoddard was granted personal interviews with Adolf Hitler, Joseph Goebbels, Heinrich Himmler, Robert Ley, Wilhelm Frick, Walter Darre, Eugen Fischer, Fritz Lenz, and Hans F. K. Gunther, and many other Nazi leaders. In addition, Stoddard was allowed to attend the workings of a German Eugenics court-the only such account ever to reach the rest of Europe and America. Among the many other insights in this unique book: - The trials and tribulations of civilian Germans at war; - The real attitude of Germans to the war; - The German Labor Front, the Winter Help, the Hitler Youth and women in the Third Reich; - The economic policies of the Third Reich; - The treatment of Jews inside Nazi Germany; and much more besides. Stoddard was a renowned and well-respected journalist when he made this trip and subsequent report, because it recounts accurately the events of the time, his name-not to mention his report-has all but disappeared from today's "official" history concerning that period. This edition has been completely reset and contains new illustrations.
