Metamorphosis

LOVE the very essence of emotion. The dictionary succinctly defines love as; '→ Sextreme affection' → that hardly seems to encompass the vastness of love. Anthesis is a menagerie of love; it savors the beauty of words and luxuriates in the plethora of imagery they evoke. Each amorous sonnet, explores a distinctive environment. Be prepared for a romantic embrace, a journey where Muse picturesquely paints poetic scenes that explore the very essence of love. This book of sonnets is accompanied by full color art, which includes many original Muse pieces. Personalized altered art applications will allow the reader to capture a vision of each sonnet; to peek into the mind of Muse beyond her written word.

House of Havoc

Brianna has longed for a life with more meaning and more purpose. What truly makes her soul come alive is music, but her life is full of laundry and dishes. One night her life is ripped apart by a fire in her village. With no family, no home, and no food, she must learn to survive on her own. But deep in her soul, anger is kindled against the Holy One for bringing so much pain into her life. Brianna sets off on an adventure that will ultimately bring her to the Hall of Minstrels, the heart of music in the kingdom, but all she ends up with is a pile of laundry and a stack of dishes. When life seems to have reached its dulllest point and nothing really matters anymore, then the Holy One may pour destiny on our souls and overflow our lives with purpose and love. Then we realize that we don't have to know all of the answers to all of the questions, to know that the Holy One cares for us.

Color Time Peace of Mine

You are living in a box. It's a nice comfortable box perhaps, with lots of windows. You can see other people, earning more than you, driving better cars than you, healthier than you, happier than you and it appears that they are just lucky, or have been privileged somehow. There are lots of reasons you think or believe they are doing better than you, but none of those reasons are correct. Only one reason is correct. They live in a different box. All of us live in boxes created by our minds that have been built to protect us and those boxes tell us where the edges of our reality are, the edges of our expectations. Good news; You CREATED the box. That means you can break it and remake it any way you want. You can expand the edges of your reality and attract bigger and better things for you and your family. This book is the key to your personal transformation, helping you become the most magnificent you that you can be. It's about understanding what sets you off balance and what brings you back to deep serenity. About what brings you peace and contentment, frees your mind of

negativity and most importantly an understanding of how your thoughts in this moment weave your very future. Its about feeling, in a very real and profound way, your connectedness to everyone and everything, your power and your significance in this world and perhaps even to find your lifes purpose. Its about understanding the how the nature of reality and the power of your mind combined enable you to achieve anything you desire. My promise is this: You will finish reading this book a different person than the one who started reading it.
