## Dance of the Gods

A. In the past, the elite manipulated the population through a more mystical belief system. In particular, there was the institution of Sun worship (typified by deities such as Osiris and Set). However, as antiquity gave way to modern history, this system of control

began to lose its effectiveness. During the sixteenth century, the ruling class managed to co-opt a relatively new methodology of truth discernmentscience. Over the years, they would contaminate this institution with their own virulent strains of thoughtmetaphysical naturalism, radical empiricism, Malthusianism, Darwinism, behaviorism, radical environmentalism, etc. Many of these paradigms were derivative of their own occult doctrines, thinly veiled to appear as objective science. All of these concepts correlate in some way and, at some point, coalesce. Together, they are gradually paving the way for the re-introduction of the hidden god of the Ancient Mysteries.

### **Consilience**

Postcolonial theory is one of the key issues of scholarly debates worldwide; debates, so the author argues, which are rather sterile and characterized by a repetitive reworking of old hackneyed issues, focussing on cultural questions of language and identity in particular. She explores the divergent responses to the debates on globalization.

Conditions of malnutrition, conflict, or a combination of both characterize many Arab countries, but this

was not always so. As in much of the developing world, the immediate post-independence period represented an age of hope and relative prosperity. But imperialism did not sleep while these countries developed, and it soon intervened to destroy these post-independence achievements. The two principal defeats and losses of territory to Israel in 1967 and 1973, as well as the others that followed, left in their wake more than the destruction of assets and the loss of human lives: the Arab World lost its ideology of resistance. The Unmaking of Arab Socialism is an attempt to understand the reasons for Arab world's developmental descent from the pinnacle of Arab socialism to its present desolate conditions through an examination of the post-colonial histories of Egypt, Syria, and Iraq.

### **All that is Solid Melts Into Air**

Seven years after the death of Anton Chekhov, his sister, Maria, wrote to a friend, "You asked for someone who could write a biography of my deceased brother. If you recall, I recommended Iv. Al. Bunin . . . . No one writes better than he; he knew and understood my deceased brother very well; he can go about the endeavor objectively. . . . I repeat, I would very much like this biography to correspond to reality and that it be written by I.A. Bunin." In *About Chekhov* Ivan Bunin sought to free the writer from limiting political, social, and aesthetic assessments of his life and work, and to present both in a more genuine, insightful, and personal way. Editor and translator Thomas Gaiton Marullo subtitles *About Chekhov* "The

Unfinished Symphony," because although Bunin did not complete the work before his death in 1953, he nonetheless fashioned his memoir as a moving orchestral work on the writers' existence and art. . . . "Even in its unfinished state, *About Chekhov* stands not only as a stirring testament of one writer's respect and affection for another, but also as a living memorial to two highly creative artists." Bunin draws on his intimate knowledge of Chekhov to depict the writer at work, in love, and in relation with such writers as Tolstoy and Gorky. Through anecdotes and observations, spirited exchanges and reflections, this memoir draws a unique portrait that plumbs the depths and complexities of two of Russia's greatest writers.

Human Nature and The Ants--gives us a work of visionary importance that may be the crowning achievement of his career. In *Consilience* (a word that originally meant "jumping together"), Edward O. Wilson renews the Enlightenment's search for a unified theory of knowledge in disciplines that range from physics to biology, the social sciences and the humanities. Using the natural sciences as his model, Wilson forges dramatic links between fields. He explores the chemistry of the mind and the genetic bases of culture. He postulates the biological principles underlying works of art from cave-drawings to *Lolita*. Presenting the latest findings in prose of wonderful clarity and oratorical eloquence, and synthesizing it into a dazzling whole, *Consilience* is science in the path-clearing traditions of Newton, Einstein, and Richard Feynman.

### **White Theology**

`Paul James has written a magnificent account of the world's current condition, one that highlights the complexities and contradictions with which people, communities, and nations must contend and that does so in a compelling and creative style. Stressing the interaction between global and local forces, his writing style is lively and compelling as well as peppered with a wide range of citations, from *Woman's Day* to the *Cambodian Daily* (on the same page!)' - James N Rosenau, University Professor of International Affairs, The George Washington University Globalism, Nationalism, Tribalism establishes a new basis for understanding the

changing nature of polity and community and offers unprecedented attention to these dominant trends. Paul James charts the contradictions and tensions we all encounter in an era of increasing globalization, from genocide and terrorism to television and finance capital. Globalism is treated as an uneven and layered process of spatial expansion, not simply one of disorder, fragmentation or rupture. Nor is it simply a force of homogenization. Nationalism is taken seriously as a continuing and important formation of contemporary identity and politics. James rewrites the modernism theories of the nation-state without devolving into the postmodernist assertion that all is invention or surface gloss. Tribalism is given the attention it has long warranted and is analyzed as a continuing and changing formation of social life, from the villages of Rwanda to the cities of the West. Theoretically adept and powerfully argued, this is the first comprehensive analysis that brings these crucial themes of contemporary life together.

### **Heart of the Rebellion**

force for what is good in the world, but has the intoxication of power left them unable to distinguish between what is right and wrong? Jess, Hannah, Milo, and their allies are in a race against time as they gather together the most influential Durupinen from around the world to join the fight. As the Necromancer threat looms, and the Durupinen leaders battle over which course to take, Jess must travel her own path, look within herself and ask: How far will she go to right an ancient wrong, and will her connection to the spirit world survive it? Gift of the Darkness is the highly-anticipated final installment in The Gateway Trackers series by E.E. Holmes.

### **Postcoloniality**

White Theology re-examines white race privilege throughout history and its relationship to black theology. James W. Perkinson articulates a white theology of responsibility responding to the claims of James Cone (and other black scholars) that serious engagement with history and culture must be at the heart of any American projection of integrity or "salvation" in the modern period. Perkinson interweaves autobiography and postcolonial analysis, history, and phenomenology to explore white supremacy and the future of religious studies. This is an essential and groundbreaking book for courses in religious studies, African American studies, and theology.

It is a near-impossible proposition. The very ranks of their protectors have been breached, and it is only a matter of time before the trust between Caomhnóir and Durupinen has all but disintegrated. The only chance the Durupinen have is to infiltrate the príosún from within-with nothing left to lose, Jess volunteers herself for the job. But the dangers are very real. The Caomhnóir of the príosún have been compromised. Jess does not know who she can trust inside-even her once unshakable bond with Finn Carey is being tested.
