Or so it seemed for many years. But with the passage of time, and the declassification of certain crucial files, the truth about that fateful day -- the day that Commander Charles "Trip" Tucker III didn't die -- could finally be revealed. In celebration of one of science fiction's most beloved franchises, an updated edition of the acclaimed Ships of the Line hardcover collection. They dared to risk it all in a skiff of reeds or leather, on a ship of wood or steel, knowing the only thing between them and certain death was their ship. To explore, to seek out what lay beyond the close and comfortable, every explorer had to embrace danger. And as they did so, what arose was a mystical bond, a passion for the ships that carried them. From the very first time humans dared to warp the fabric of space, escaping from the ashes of the third World War, they also created ships. These vessels have become the icons of mankind's desire to rise above the everyday, to seek out and make the unknown known. And these ships that travel the stellar seas have stirred the same passions as the ones that floated in the oceans. While every captain has wished that their starship could be outfitted in the same manner as the sailing ship H.M.S. Beagle—without weapons—that proved untenable. From the start, Starfleet realized that each vessel, due to the limited range of the early warp engines, must be able to stand alone against any attack. Thus arose the idea, taken from the days of wooden sailing ships, that every Starfleet vessel must stand as a ship of the line. Through the actions of their captains and crews, countless starships have taken on that role. Here we remember some of those ships and their heroic crews. In celebration of one of science fiction's most beloved franchises, this updated edition of the acclaimed Ships of the Line hardcover collection now includes dozens of additional images brought together for the first time in book format—spectacular renderings featured in the highly successful Star Trek: Ships of the Line calendar series. With text by Star Trek's own Michael Okuda, the story of each of these valiant starships now comes to life. ™, ®, & © 2014 CBS Studios, Inc. “Ryan Britt is . . . the Virgil you want to guide you through the inferno of geekery.” –Lev Grossman, author of the bestselling Magician's trilogy Pop Culture and sci-fi guru Ryan Britt has never met a monster, alien, wizard, or superhero that didn't need further analysis. Essayist Ryan Britt got a sex education from dirty pictures of dinosaurs, made out with Jar-Jar Binks at midnight, and figured out how to kick depression with a Doctor Who Netflix-binge. Alternating between personal anecdote, hilarious insight, and smart analysis, Luke Skywalker Can't Read contends that Barbarella is good for you, that monster movies are just romantic comedies with commitment issues, that Dracula and Sherlock Holmes are total hipsters, and, most shockingly, shows how virtually everyone in the Star Wars universe is functionally illiterate. Romp through time and space, from the circus sideshows of 100 years ago to the Comic Cons of today, from darkest corners of the Galaxy to the comfort of your couch. For anyone who pretended their flashlight was a lightsaber, stood in line for a movie at midnight, or dreamed they were abducted by aliens, Luke Skywalker Can't Read is full of answers to questions you haven't thought to ask, and perfect for readers of Chuck Klosterman, Rob Sheffield, and Ernest Cline.
