The Antiquarian Sticker Book: Bibliophilia

All Good Things Are Wild and Free Sticker Book

A guide to conscious living through the moon and her phases, incorporating wellness rituals, spellwork, and witchcraft for the modern seeker. We all know the moon. We all have a relationship with it. The earliest people obeyed her orbit, timed their months and holidays and celebrations and agriculture to the moon; the echoes of that system are still visible today, though the connection to the moon is often forgotten. Sarah Faith Gottesdiener is the leader of a movement to remind us of that lineage, guiding our rhythms and our sleep, our energy and our emotions, reminding us of our humanity and our magic. In her self-published Many Moons Workbooks and Lunar Journals, as well as her sold-out classes, she has guided over 50,000 readers to a deeper relationship with the moon, and through it, with themselves. This evergreen book will be an informative and comprehensive guide to lunar living, incorporating radical, self-empowering, and magical tools and resources for the beginner and experienced lunar-follower alike. Depending on where we are in our lives, depending on what we are feeling or what is happening around us, the moon allows us a space to invite ritual into our daily lives. The Moon Book will provide a framework on how to utilize the entire lunar cycle holistically, while offering ways for the reader to develop a personal relationship with their own cycles—energetic, personal, and emotional—through the lens of the moon's phases.

So. Many. Stickers.

It is a truth, universally acknowledged, that the best of all colors is blue. That's right, blue is the most beautiful and

delightful. Everyone agrees. And so we made this activity book, celebrating the greatest color of all. Packed with fun activities like mazes, one-color coloring, spot-the-difference, creative writing prompts, drawing lessons, search & finds, paper toy crafts, and more! With bonus stickers included, celebrate your favorite color like you've never done before. And unlike other books, this one was specially made with EVEN MORE blue inks to create more variations of the color than you've ever seen in print! Oh, and we also created seven other activity books celebrating those other—clearly subpar—colors that people seem to also like for some silly reason: RED, ORANGE, YELLOW, GREEN, PINK, PURPLE, and BLACK. The My Favorite Color Activity Book series has a color for everyone!

The Moon Book

~ The past doesn't always stay in the past. Sometimes it comes to life on the dance floor ~ Enter a world of nostalgic fashion, classic cocktails, and dance halls. 18-year-old June finds herself face to face with one of her deepest desires. Dance. She embarks on a path of discovery and relishes the vintage skirt wrapping around her warm thighs on the crowded dance floor. And the way her partner moves her to distraction by expertly shifting his leg between hers, delicately pushing her into intricately guided steps. When an accomplished dancer is injured before the international jitterbug contest, June is tapped to take her place. June struggles to overcome her fears, win the contest, and not fall in love with her otherwise engaged-dance partner. Fifty years earlier, another 18-year-old jitterbug, Violet, leads the life June and her friends emulate. But Violet's life begins to unravel when she and her sailor beau find her grifting father passed out on her doorstep, blood oozing from his head. They race against his deployment to tie the knot before the war can tear them apart. When his letters mysteriously stop arriving, Violet is forced to make the decision of a lifetime alone. Half a century later, while practicing for the contest, June finds an antique dress which may lead her to the one person she's been looking for, her biological grandmother, and the key to unlocking a fifty year-old mystery. THE GIRL IN THE JITTERBUG DRESS is the parallel story of two young women struggling with love, loss, and redemption, united across generations by a 1940's swing dress.

corresponds to a particular colored sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next—it's an activity that's utterly absorbing as you watch a "painting" emerge from a flat black-and-white illustration to a dazzling image with color, body, spirit.
