Report

Ten years in the works, a masterpiece of reportage, this is the definitive account of the Columbine massacre, its aftermath, and its significance, from the acclaimed journalist who followed the story from the outset. "The tragedies keep coming. As we reel from the latest horror . . ." So begins a new epilogue, illustrating how Columbine became the template for nearly two decades of "spectacle murders." It is a false script, seized upon by a generation of new killers. In the wake of Newtown, Aurora, and Virginia Tech, the imperative to understand the crime that sparked this plague grows more urgent every year. What really happened April 20, 1999? The horror left an indelible stamp on the American psyche, but most of what we "know" is wrong. It wasn't about jocks, Goths, or the Trench Coat Mafia. Dave Cullen was one of the first reporters on scene, and spent ten years on this book-widely recognized as the definitive account. With a keen investigative eye and psychological acumen, he draws on mountains of evidence, insight from the world's leading forensic psychologists, and the killers' own words and drawings-several reproduced in a new appendix. Cullen paints raw portraits of two polar opposite killers. They contrast starkly with the flashes of resilience and redemption among the survivors. Expanded with a New Epilogue

Cri Du Chat - The First Ten Years

"How often do you begin reading a book that makes you immediately, urgently, desperately want to read more books?" (Booklist). Nick Hornby has managed to write just such a book in this hilarious, insightful, and infectious volume. Ten Years in the Tub chronicles Hornby's journey through a decade's worth of books, as related in his wildly popular Believer column "Stuff I've Been Reading." Ten Years in the Tub is a one-way ticket into the mind of one of the most beloved contemporary writers on his favorite pastime, but it's also a meditation on what Celine Dion can teach us about ourselves, a warning about how John Updike can ruin our sex lives, and a recommendation for the way Body Shop Vanilla Shower Gel can add excitement to our days. This "decade-long addiction for many makes standing in line at the bank a blessed interval for snorting another page." (the New York Times Book Review)

Report of the Prison Inquiry Commission

Thirty years ago when Sir Richard Branson called up Boeing and asked if they had a spare 747, few would have predicted the brash entrepreneur would so radically transform the placid business of air travel. But today, Branson flies airlines on six continents, employs hundreds of jets and, in 2014, was predicting that his spaceship company - Virgin Galactic - would soon open the space frontier to commercial astronauts, payload specialists, scientists and space tourists. With more than 600 seats sold at \$250,000 each, what started off as a dream to send people just for the excitement to look back and marvel at Earth, was on the cusp of finally being turned into a business. Then, on October 21, 2014, tragedy struck. SpaceShipTwo was on its most ambitious test flight to date. Seconds after firing its engine, Virgin Galactic's spaceship was breaking through the sound barrier. In just the three seconds that it took for the vehicle to climb from Mach 0.94 to Mach 1.02, co-pilot Mike Alsbury made what many close to the event believe was a fatal mistake that led to his death and the disintegration of SpaceShipTwo. Miraculously, the pilot, Peter Siebold, survived the 16-km fall back to Earth. Soon after the event Branson vowed to continue his space tourism venture in spite of this. Already a second SpaceShipTwo is being built, and ticket-holders eagerly await the day when Virgin Galactic offers quick, routine and affordable access to the edge of space. This book explains the hurdles Virgin Galactic had and still has to overcome en route to developing suborbital space travel as a profitable economic entity, and describes the missions that will be flown on board

Annual Report of the State Board of Health of Massachusetts

A sometimes hilarious, occasionally heartbreaking, and always entertaining joint memoir by Joseph Fink, cocreator of *Welcome to Night Vale*, and his wife, writer and performer Meg Bashwiner, chronicling the first ten years of their relationship from both sides. There are two sides to every love story. In 2009, 22-year-old Joseph Fink, newly arrived to New York City from the West Coast, was juggling odd jobs to pay the rent and volunteering with a theater company in the East Village so he could snag free tickets to their shows. Meg Bashwiner, a 22-year-old aspiring performer and playwright, was living with her parents in New Jersey, working a desk job and commuting to her internship with that same East Village theater company. Joseph and Meg's stories meet when they both find themselves selling tickets in a cramped box office. They quickly became friends. Within a year, they were a couple. Within five years they were touring the world, performing on some of the world's greatest and not so great stages. In this candid, soul-baring memoir, Joseph and Meg recount their first ten years together, each telling their story as they remember it, without having consulted the other. We hear both sides of their first kiss, first breakup, first getting back together, the death of a father, marriage, international fame, world tours, mental illness, and discussions about having children. Sometimes, they recall things differently—neither agrees on who paid for the morning after pill on their first date. Sometimes they remember the exact same details in the same way—but still have their own narrative on just what those details mean. Poignant, funny, and real, alternately told in Joseph and Meg's remarkably different, yet equally compelling voices, *The First Ten Years* is the story of two individuals finding their way in the world and becoming "adults" as they learn to become a couple.

Cri Du Chat The First Ten Years By Rowan Blair Colver This book is written by a parent of a child with Cri Du Chat syndrome, a rare genetic condition that affects one in tens of thousands of people. When first given the diagnosis for our child, we as parents had little information available that was able to provide practical and emotional advice. I decided to write this book as a way of putting something out there which I feel I would have liked when first finding out about the syndrome. I have been honest and open about my experience as a father in an active parenting role with my child. In this way I hope to be able to shed light on what you may expect and how it has been possible for me to learn from and handle situations that I feel are connected to this issue. Much like a hand to hold and a source of insight and information, this is a parent's book for parents and carers who may or may not be affected by Cri Du Chat syndrome.

"Stalinism has worked mightily to obliterate the honorable record of American communism in its pioneer days. Yet the Communist Party wrote such a chapter too, and the young militants of the new generation ought to know about it and claim it for their own. It belongs to them." -- James P. Cannon, 1962.

Chasing Hillary

For a decade, award-winning New York Times journalist Amy Chozick chronicled Hillary Clinton's pursuit of the presidency. Chozick's front-row seat, initially covering Clinton's imploding 2008 campaign, and then her assignment to "The Hillary Beat" ahead of the 2016 election, took her to 48 states and set off a nearly ten-years-long journey in which the formative years of her twenties and thirties became — both personally and professionally — intrinsically intertwined to Clinton's presidential ambitions. Chozick's candor and clear-eyed perspective—from her seat on the Hillary bus and reporting from inside the campaign's Brooklyn headquarters, to her run-ins with Donald J. Trump and her globetrotting with Bill Clinton— provide fresh intrigue and insights into the story we thought we all knew. This is the real story of what happened, with the kind of dishy, inside details that repeatedly surprise and enlighten. But *Chasing Hillary* is also a rollicking, irreverent, refreshingly honest personal story of how the would-be first woman president looms over Chozick's life. And, as she gets married, attempts to infiltrate the upper echelons of political journalism and inquires about freezing her eggs so she can have children after the 2016 campaign, Chozick dives deeper into decisions Clinton made at similar points in her life. In the process, Chozick came to see Clinton not as an unknowable enigma and political animal but as a complex person, full of contradictions and forged in the political battles and media storms that had long predated Chozick's years of coverage. Trailing Clinton through all of the highs and lows of the most noxious and wildly dramatic presidential election in American history, Chozick comes to understand what drove Clinton, how she accomplished what no woman had before, and why she ultimately failed. Poignant, illuminating, laugh-out-loud funny, *Chasing Hillary* is a campaign book like never before that reads like a fast-moving political novel.

It is our hope that this volume will serve to document both the history of the Collegium Phaenomenologicum during its first ten years as well as some of the philosophical work that has grown out of the annual gatherings in Perugia. The Introduction narrates the history and is supplemented by the Appendices, in which the programs and the participants for each of the ten years are listed. The essays, on the other hand, present in more finished form work that was developed in connection with courses, lectures, or seminars conducted during the first ten years of the Collegium. Giuseppina Moneta John Sallis Jacques Taminiaux Introduction The Collegium Phaenomenologicum in Its First Ten Years GIUSEPPINA C. MONETA The idea of the Collegium Phaenomenologicum first took shape in a conversation that I had with Werner Marx at his home in Bollschweil in the Spring of 1975. Previously I had thought of the possibility of a gathering of phenomenologists somewhere in Italy during the summer months. And when I explained to Werner Marx that it would not be difficult to find accommodation for such a gathering in a Franciscan monastery in Umbria, he responded enthusiastically and assured me that such a project would have the support of the Husserl Archives in Leuven and in Freiburg.
