Inter-civilizational Relations and the Destiny of the West

In Europe and North America, networks tracing their origins back to the Muslim Brotherhood and other Islamist movements have rapidly evolved into multifunctional and richly funded organizations competing to become the major representatives of Western Muslim communities

and government interlocutors. Some analysts and policy makers see these organizations as positive forces encouraging integration. Others cast them as modern-day Trojan horses, feigning moderation while radicalizing Western Muslims. Lorenzo Vidino brokers a third, more informed view. Drawing on more than a decade of research on political Islam in the West, he keenly analyzes a controversial movement that still remains relatively unknown. Conducting in-depth interviews on four continents and sourcing documents in ten languages, Vidino shares the history, methods, attitudes, and goals of the Western Brothers, as well as their phenomenal growth. He then flips the perspective, examining the response to these groups by Western governments, specifically those of Great Britain, Germany, and the United States. Highly informed and thoughtfully presented, Vidino's research sheds light on a critical juncture in Muslim-Western relations.

For decades, the story of the American West has been told as a glorious tale of conquest and rugged individualism--the triumph of progress. But recently, a new school of historians has challenged this view, creating what is known as the "new western history," an approach that gives a central role to the environment, native peoples, and the concentration of power in the hands of a few. Foremost among these historians is Donald Worster. In Worster's writings, the western past emerges not as a march of Manifest Destiny but rather as an unfolding relationship between humankind and nature. In *Under Western Skies*, Worster provides an eloquent introduction to the changing traditions of western historical writing and then

demonstrates his own approach through fascinating case studies. For example, he takes a hard look at the struggle by the Lakota to regain ownership of the Black Hills, examining not only the legal history of treaties and court cases but also the importance of the Black Hills in Indian religion and the way they have been mismanaged by the U.S. government. He discusses the cowboy in terms of the new ecology that arose from livestock ranching--the endless miles of fences, the changes in the environment wrought by extensive grazing, certain species of animals almost wiped out because they were considered a danger to sheep and cattle. But Worster's view of nature is not as simple or as, linear as for instance, Bill McKibben's stark picture in *The End of Nature*, a picture Worster argues against. From the mining ghost towns of the Rockies to the uprooted farm families of the Dust Bowl, nature sometimes wins the struggle. Even the Hoover Dam, he reminds us, may one day be overcome by the patient Colorado River. *Under Western Skies* both offers intriguing insights into important aspects of our history and instills a new appreciation for the place of nature, native peoples, and the struggles over money and power in the western past.

Colorado Congressman Wayne N. Aspinall was variously dubbed the "Ruler of the Land," a "bridge between the old and new Wests," and the environmental movement's "most durable foe." The late David Brower, the notable Sierra Club leader, remarked that the environmental movement had seen "dream after dream dashed on the stony continents of Wayne Aspinall."

In *Wayne Aspinall and the Shaping of the American West*, Steven C. Schulte details a political career that encompassed some of the most crucial years in the development of the twentieth-century West. As chairman of the House Interior and Insular Affairs Committee from 1959 to 1973, Aspinall shaped the nation's reclamation, land, wilderness, and natural resource policies. His crusty and determined personality was at the center of some of the key environmental battles of the twentieth century, including the Echo Park Dam fight, the struggle for the Wilderness Act, and the long controversy over the Central Arizona Project.

Award-winning journalist and investigative reporter Rone Tempest presents the gripping true crime story of a Puerto Rico-born undercover officer gunned down by a white Wyoming lawman in 1978 -- and the notorious frontier trial that followed. Of all the possible explanations for why lawman Ed Cantrell shot and killed his deputy Michael Rosa in the parking lot of the Silver Dollar saloon, the least likely was the one that prevailed at trial--that a deranged Rosa went for his gun and Cantrell outdrew him in self-defense. In his powerful and compelling

reconstruction of the infamous 1978 killing in boomtown Rock Springs, Wyoming, Pulitzer Prize-winning journalist Rone Tempest tracks the parallel lives of Ed Cantrell, an Indiana schoolboy who fashioned himself into a 19th-century Western gunfighter on the right side of the law, and Michael Rosa, a Puerto Rico-born and West Harlem-raised decorated U.S. Marine who worked under Cantrell as an undercover narc. For a time, Tempest writes, the two were an efficient team: Cantrell, the steely-eyed Wild West throwback and Rosa, the street-savvy New Yorker with an impressive flair. It was as though Wyatt Earp and Shaft had teamed up to fight crime in the Mountain West. But then came a falling-out. Rosa was subpoenaed to testify before a state grand jury in Cheyenne on the matter of corruption in Rock Springs, including within its own police department. Tensions and paranoia built to breaking point at a midnight meeting in a saloon parking lot where Cantrell, with two other cops beside him, drew his Model 10 .357 and shot Rosa between the eyes, killing him instantly as he sat in the backseat of an unmarked police car. Unearthing previously unseen investigators' notes, military records, personnel files, census records, college transcripts and even airplane manifests, Tempest skillfully demonstrates the true aim and cost of the raucous murder trial that followed the killing. "A grave miscarriage of justice," said former Wyoming U.S. Attorney Christopher "Kip" Crofts. "THE LAST WESTERN is quick moving, deeply sourced, and a page-turning snapshot of an event that rocked the state and still lingers - for better or worse."-- C.J. Box, #1 New York Times bestselling author of LONG RANGE "Hugely entertaining. Think: High Noon meets Training Day in Deadwood." --Mike Sager, Esquire, author of The Devil and John Holmes and Hunting Marlon Brando "Rone Tempest's spellbinding latest work won't be the last western, but it will stand as one of the very best."--Will Bagley, Writer/Historian "Wyoming was riveted by

word that an undercover drug agent was shot by his boss in a police car just as he was preparing to testify before a grand jury investigating corruption Rone Tempest has brought to light extensive new details about the characters involved in one of the American West's strangest dramas."--Pete Williams, NBC News Justice Correspondent"Reading Tempest is like taking a masterclass in writing and reporting--and a seriously good time"--Stephanie Gorton, author of Citizen Reporters: S.S. McClure, Ida Tarbell and the Magazine That Rewrote America"Tempest gives his readers a gripping, well-told tale, introducing us to a colourful cast of characters inhabiting the volatile, often violent world of a twentieth-century Western boomtownA fascinating and highly enjoyable true crime story."--Crime CultureAbout the authorRone Tempest was a longtime national and foreign correspondent for the Los Angeles Times serving as bureau chief in Houston, New Delhi, Paris, Beijing, Hong Kong and Sacramento. After moving to Lander, Wyoming in 2008, he was co-founder and editor of the public policy news site WyoFile.com. He now lives in Salt Lake City where he is on the board of the Utah Investigative Journalism Project.
