CANCER CLINIC CAUSES WORST HEPATITIS OUTBREAK IN US HISTORY In the small farming community of Fremont, Nebraska, townspeople eagerly welcomed an acclaimed doctor as the first full-time oncologist at their new cancer treatment center-but the fanfare soon turned into a nightmare. During chemotherapy treatments, 857 patients who were already waging the fights of their lives against cancer, were inexplicably exposed to the deadly, blood-borne hepatitis C virus. At least ninety-nine of them contracted the lethal illness. The horror was unprecedented-this was the largest healthcare-transmitted outbreak of hepatitis C in American history.

Written by a survivor of the tragedy and an attorney who represented many of the victims, A Never Event is a wake-up call to medical and legal communities nationwide. Rhetoric of Transformation

Kat's life turned out far different than anything she could have ever imagined. One day she was being chased in an alleyway and now she's wondering who this man she fell for is. Being Awakened means little when you feel like a caged animal. What good is being immortal if you're no freer than a human? If the Prince has a problem with that? He can take a seat with the others. Kat knows what everyone has kept from her. You can't hide the truth forever. The world needs a wake up call. The Awakened Prince isn't the one in charge anymore. She is. And you know what? It's time to live by Kat's rules. Only one person keeps trying to undermine her. The Prince. It's time he backs off. Or does Julian have something left to discover about himself that may change the game for every single one of the Awakened, including Kat? That may change the entire future of everyone involved, and may still Awaken something that none of them had ever believed possible? Not all accidents are innocent. Sometimes fate has to step in and lend a hand.

For the Next Generation

"I don't know about you, but I need all the help I can get when it comes to spiritually jump-starting my day. Some days I get up and it is all I can do to concentrate on a few verses of Scripture. Other days I feel tempted to blow off my twenty minutes of reading because I'm anxious that I have too much to do. On such days I have found it helpful to have a source to direct my thoughts toward God. I need a tool to help me rouse my weary spirit and prepare to take on yet another day of kingdom building. In short, I need a wake-up call. Do you?" So writes Will Davis Jr., in "Wake-Up Calls." "Wake-Up Calls" helps bleary-eyed Christians to better see God's kingdom. It deals practically with such topics as temptation, sin, prayer, relationships, suffering, conflict, death and obedience with honesty and in-your-face clarity. If you need a blast of kingdom reality that cuts through the morning's spiritual fog, then "Wake-Up Calls" is for you.

Playing With Holy Fire

Emily's Blues is an excellent portrayal of a young girl as she searched relentlessly for identity and a better life in an oppressive society. Her struggle to find dignity and self-worth should inspire girls around the globe to fight for the freedom and the respect they deserve. All females will find something relative to their lives in this emotional saga as Emily journeys from North Carolina, to New York, New Jersey, Washington, DC, and finally she makes an East to West odyssey finally in California where she does overcome, but not without experiencing violence, threats and fear. The story should serve as a wake-up call to males who are abusive to females or refuse to acknowledge their worth and importance. It should encourage fathers to become more involved in preparing their daughters for the pitfalls they might encounter in their relationships with males.

In the Wake of Wanting

A mile away the white beach of a little, land-locked bay shimmered under the morning sun, and the drooping fronds of the cocos hung listless and silent, waiting for the rising of the south-east trade. "Paul," I said, "it is very hot here. Come on shore with me to the native village, where it is cooler, and I will make you a big drink of lime-juice." I helped him to rise-for he was weak from a bad attack of New Guinea fever-and two of our native crew assisted him over the side into my whaleboat. A quarter of an hour later we were seated on mats under the shade of a great wild mango tree, drinking lime-juice and listening to the lazy hum of the surf upon the reef, and the soft croo, croo of many "crested" pigeons in the branches above.

What do you do after life has handed you a wake-up call? Author Brian Seth Hurst experienced a significant professional setback, but, rather than “soldier on,” he recognized it as a profound opportunity to acknowledge a deeper foundation at work in his life. It is the affirmation that there is sheer power in what one believes, and, for better or worse, those beliefs are the foundation for the reality we create. The question of “Why?” began a thirty-day inquiry and adventure for Hurst into the unknown. The result is the book **W H O L E** - a collection of powerful essays that examine how beliefs serve, or do not serve, us in our lives, how those beliefs can be transformed to change our circumstances, and the power of the ultimate connection to Source. What do you do after life has handed you a wake-up call? If you decide to remain awake, then you begin looking at your life. **W H O L E** is your companion as you review the past, balance all areas of your life, and begin to create anew. **W H O L E** prompts a very personal, progressive, and conscious examination of concepts and belief systems in every area of your life, ranging from relationships, work and time, to money, the environment, morality and your purpose. It asks provocative and thoughtful questions that lead to understanding. How do you reconcile everything that has happened and is happening in your life with the one you truly want? The good and the bad, the joy and the hurt, the wins and the losses - all those parts form the experience of your life and your identity. Yet, you are much greater than the sum of all those parts. **W H O L E** allows you to make sense of the pieces of your life as part of the greater being that is You. **W H O L E** presents you with the opportunity to reconcile the past, arrive wholly connected in the present, and create your future. **W H O L E** literally answers the question, “What was I thinking?” “To know “whole” in the duality of your reality, you must know broken. To know broken is to recognize that you are, always have been, and always will be **WHOLE**.”

I don't usually tell that last bit to strangers, but I say it in my head all the time. It's one of the many mantras that have helped me to get to where I am today. And believe me when I say that I've come a long way. Besides, if you're a woman and you happen to have ever struggled with issues of self-esteem, we're probably gonna be fast friends anyway, so I won't hold anything (much) back. Oh, and Zara wasn't the name I was born with-but you'll find out more about that in the book. I don't know about you, but my own struggle with my weight has held me back a bit in life. And my self-esteem took a real nose dive after my fiance dumped me-via text, no less. (I know, right? Jerk!but I don't usually dwell on things in the past, so let's just move right along from that, shall we?) So, I'm still a work-in-progress for sure, but I'm really starting to figure it all out-how to be more of who I'm meant to be every day-including the bumps, the lumps, and my bruised ego along the way. Oh and I love my sisterhood (more about that later) - the women who join me in believing that we are all capable of being strong, amazing, warrior princesses-just the way we are right now."

Good Mornings: Wake-Up Calls for Life

Apocalypse Emergency—Love's Wake-Up Call is about a frightening global predicament that everyone seems to be aware of but which few people are giving the attention and seriousness it deserves. Why people would do that and why the media would be inclined to shy away is understandable. We simply have no way of comprehending the magnitude of what is happening—the end of life on Earth—nor how fast it is occurring—likely in our lifetime—since no living thing on this planet in its multibillion year history has had to face what we are. The environmental collapse now occurring can be compared to a trillion-alarm fire with everyone looking the other way. We need to respond to it with the urgency of being in a world war, marshaling all available national and world resources and not with the complacency of a boy-scout litter pick-up campaign. "Love's Wake-Up Call" goes back and forth between the horrors that are possible and this unique situation with the potential so strong to bring humans to raise themselves up and be led by their better angels more than any other time. At no other time in the history of the world was the truth of the saying "we're all in this together" more patently true.

Exposing Myself

"A traditionally educated oncologist presents a cutting-edge, whole-person approach to cancer's treatment and causes. Cancer as a Wake-Up Call is an easy-to-read guide to an integrative approach to preventing and treating cancer. Conventional medicine focuses on attacking cancer cells, but doesn't address why a person gets sick. But cancer is a systemic disease manifesting a global condition locally. In this well-researched volume, oncologist Mariacute; a Laura Nasi, MD offers holistic approaches to cancer. Rather than trying to disprove traditional methods of dealing with cancer, she demonstrates the limitations of seeing and treating cancer merely as an invader that must be eradicated; why do some people's bodies metabolize mutations without forming cancer while someone else exposed to the same carcinogens develops cancer? Why do some people see cancer return after it's eradicated while others see no remission? Nasi invites the reader to look at cancer from a whole-person perspective that takes into account experiences, environment, and the full picture"--

The Wake-Up Call

Exposing trafficking, theft, fraud, and gambling in the major leagues, a founding member of the MLB's Department of Investigations reveals a news-breaking true story of power and corruption. In the wake of 2005's sometimes contentious, sometimes comical congressional hearings on performance-enhancing drugs in baseball and the subsequent Mitchell Report, Major League Baseball established the Department of Investigations (DOI). An internal and autonomous unit, it was created to not only eliminate the use of steroids, but also to rid baseball of any other illegal, unsavory, or unethical activities. The DOI would investigate the dark side of the national pastime--gambling, age and identity fraud, human trafficking, cover-ups, and more--with the singular purpose of cleaning up the game. Eduardo Dominguez Jr. was a founding member of that first DOI team, leaving a stellar career with the Boston Police Department to join four other "supercops"--a group

that included a 9/11 hero, a mob-buster, and narcotics experts--keeping watch over Major League Baseball. A decorated detective as well as a member of an FBI task force, Dominguez was initially reluctant to leave his law-enforcement career to work full-time in baseball. He had already seen the game's underbelly when he worked as a resident security agent (RSA) for the Boston Red Sox in 1999 and become wary of the game's commitment to any kind of reform. Only at the persuasion a widely respected NYPD detective tapped to lead the DOI did Dominguez agree to join the unit, which was the first--and last--of its kind in major American sports. "We could clean up this game," his new boss promised. In *Baseball Cop*, Dominguez shares the shocking revelations he confronted every day for six years with the DOI and nine as an RSA. He shines a light on the inner workings of the commissioner's office and the complicity of baseball's bosses in dealing with the misdeeds compromising the integrity of the game. Dominguez details the investigations and the obstacles--from the Biogenesis scandal to the perilous trafficking of Cuban players now populating the game to the theft of prospects' signing bonuses by buscones, street agents, and even clubs' employees. He further reveals how the mandates of former senator George Mitchell's report were modified or ignored altogether. Bracing and eye-opening, *Baseball Cop* is a wake-up call for anyone concerned about America's national pastime.

As two veteran teachers who have taught thousands of students, Joe Clement and Matt Miles have seen firsthand how damaging technology overuse and misuse has been to our students. Rather than becoming better problem solvers, kids look to Google to answer their questions for them. Rather than deepening students' intellectual curiosity, educational technology is too often cumbersome and distracting, causing needless frustration and greatly extending homework time. Rather than becoming the great equalizer, electronic devices are widening the achievement gap. On a mission to educate and empower parents, Clement and Miles provide many real-world examples and cite multiple studies showing how technology use has created a wide range of cognitive and social deficits in our young people. They lift the veil on what's really going on at school: teachers who are powerless to curb cell phone distractions; zoned-out kids who act helpless and are unfocused, unprepared, and antisocial; administrators who are too easily swayed by the pro-tech "science" sponsored by corporate technology purveyors. They provide action steps parents can take to demand change and make a compelling case for simpler, smarter, more effective forms of teaching and learning.

David Halberstam's classic *The Breaks of the Game* meets Michael Lewis' *Moneyball* for the modern age, in an award-winning journalist's behind-the-scenes account from the epicenter of sports, social justice and coronavirus -- a lasting chronicle of the historic 2019-2020 NBA season, by way of the notorious Brooklyn Nets and basketball's renaissance as a cultural force beyond the game. The Brooklyn Nets were already the most intriguing startup in sports: a team full of influencers, entrepreneurs and activists at the heart of American culture, starring the controversial Kevin Durant and Kyrie Irving. But this dynasty-in-the-making got disrupted by the unforeseen. One tweet launched an international scandal pitting Brooklyn's Chinese owner and the NBA's commissioner against its players and LeBron James. Then came the death of Kobe Bryant, a tragic shock in an already turbulent season, as the league re-launched into a world of uncertainty with the entertainment business following its lead: Covid-19 and a new civil-rights movement put basketball's role in society to the ultimate test -- and no team intersected with the extremes of 2020 quite like the Brooklyn Nets. *Can't Knock the Hustle* crosses from on the court, where the A-list meets the underdog, to off the court, as players march through the streets of Brooklyn, provoke Donald Trump at the White House and fight for social justice from the NBA's bubble experiment in Disney World. Hundreds of interviews -- with Hall-of-Famers, All-Stars, executives, coaches and power-brokers from

across the globe -- provide a backdrop of the NBA's impact on social media, race, politics, health, fashion, fame and fandom, for a portrait of a time when sports brought us back together again, like never before.

The great deception of the 21st century At a time when the church needs an urgent wake-up call and a fresh encounter with Jesus, the hyper-grace message is lulling many to sleep. Or is the glorious truth of grace being polluted by errors, leading to backsliding, compromise, and even the abandonment of faith? Hyper-Grace looks at the major teachings put forth by many adherents of this “grace reformation” and prayerfully compares those teachings with the Word of God, answering questions such as:
