At the crossroads of #MeToo, #HexthePatriarchy, and the increasingly vocal feminist and LGBTQ+ movements comes a highly readable and moving collection of writings. The difference between the witch and the layperson is that a witch already knows they are powerful. Written by women artists, authors, columnists, comic book writers, fashionistas, performers, and video game designers, these essays are personal explorations about how and why rituals of resistance work for them. Their goal is to help readers summon their own power to resist, survive, and thrive.

"No one writes about the subjects of sexuality, desire, the shadow, and diabolism with such relish, and when I read her words I feel both smarter and less afraid of my own 'tabooed' feelings and thoughts. Like a cat, Kristen sees in the dark, as she guides us gracefully forward with her vision of unapologetic, feminine power." —From the Foreword by Pam Grossman, author of *Waking the Witch: Reflections on Women, Magic, and Power*

The cat: A sensual shapeshifter. A hearth keeper, aloof, tail aloft, stalking vermin. A satanic accomplice. A beloved familiar. A social media darling. A euphemism for reproductive parts. An epithet for the weak. A knitted—and contested—hat on millions of marchers, fists in the air, pink pointed ears poking skyward. Cats and cat references are ubiquitous in art, pop culture, politics, and the occult, and throughout history, they have most often been coded female. From the "crazy cat lady" unbowed by patriarchal

prescriptions to the coveted sex kitten to the dreadful crone and her yowling compatriot, feminine feline archetypes reveal the ways in which women have been revered and reviled around the world—in Greek and Egyptian mythology, the European witch trials, Japanese folklore, and contemporary film. By combining historical research, pop culture, art analyses, and original interviews, *Cat Call* explores the cat and its indivisible connection to femininity and teases out how this connection can help us better understand the relationship between myth, history, magic, womanhood in the digital age, and our beloved, clawed companions.

A powerful true story about a Muslim doctor's service to small-town America and the hope of overcoming our country's climate of hostility and fear. In 2013, Ayaz Virji left a comfortable job at an East Coast hospital and moved to a town of 1,400 in Minnesota, feeling called to address the shortage of doctors in rural America. But in 2016, this decision was tested when the reliably blue, working-class county swung for Donald Trump. Virji watched in horror as his children faced anti-Muslim remarks at school and some of his most loyal patients began questioning whether he belonged in the community. Virji wanted

out. But in 2017, just as he was lining up a job in Dubai, a local pastor invited him to speak at her church and address misconceptions about what Muslims practice and believe. That invitation has grown into a well-attended lecture series that has changed hearts and minds across the state, while giving Virji a new vocation that he never would have expected. In *Love Thy Neighbor*, Virji relates this story in a gripping, unforgettable narrative that shows the human consequences of our toxic politics, the power of faith and personal conviction, and the potential for a renewal of understanding in America's heartland.

A guide to conscious living through the moon and her phases, incorporating wellness rituals, spellwork, and witchcraft for the modern seeker. We all know the moon. We all have a relationship with it. The earliest people obeyed her orbit, timed their months and holidays and celebrations and agriculture to the moon; the echoes of that system are still visible today, though the connection to the moon is often forgotten. Sarah Faith Gottesdiener is the leader of a movement to remind us of that lineage, guiding our rhythms and our sleep, our energy and our emotions, reminding us of our humanity and our magic. In her self-published *Many Moons Workbooks and Lunar Journals*, as well as her sold-out classes, she has guided over 50,000 readers to a deeper relationship with the moon, and through it, with themselves. Between the 15th-17th centuries, a confluence of political, economic, and religious factors inspired witch hysteria to ignite like wildfire across Europe, and, later, parts of America. At the heart of the witch hunts were often dangerous misconceptions about femininity and female sexuality, and women were disproportionately punished as a result. Today, this lineage of oppression remains an important reference point through which we can contemplate women's rights--and human rights--in the Western world and beyond. Witch Hunt isn't only an exploration of the horrors of history, but also uncovers how the archetype of the witch has been rehabilitated. For witches are not just haunting figures of the past; the witch is also a liberatory icon and identity of the present.

16th and 17th centuries, which, it is estimated, may have claimed the lives of around 40,000 people. For both Medieval and Reformation scholars alike the Devil and all his works were a very real threat. Their conviction that witches were the servants of Satan led to the formation of perhaps one of the greatest conspiracy theories of all time: a belief that witches were working in league with the Devil in a diabolical plot against all Christendom. Witches were transformed from poor deluded old women who rode out at night with the pagan goddess Diana into devil-worshipping heretics who became the focus of a centuries-long, Europe-wide campaign determined to seek out and destroy this evil wherever it was to be found, regardless of whether any of its victims were actually guilty or not.

Touch Me Not is an Austrian manuscript compendium of the black magical arts, completed c. 1795. Unique and otherworldly, it evokes a realm of visceral dark magic. As the co-editor of this volume Hereward Tilton notes, the manuscript "appears at first sight to be a 'grimoire' or magician's manual intended for noviciates of black magic. Psychedelic drug use, animal sacrifice, sigillary body art, masturbation fantasy and the necromantic manipulation of gallows--corpses count among the transgressive procedures it depicts. With their aid hidden treasures are wrested from guardian spirits, and the black magician's highest ambition--an infernal transfiguration and union with the Devil--can be fulfilled." Hidden for decades within the Wellcome Library collection, Touch Me Not is published here as a full-color facsimile. The German and Latin texts have been translated by Hereward Tilton and Merlin Cox, scholars who have explored the sources for the various elements and provided copious

Smoke Gets in Your Eyes meets Women Who Run With The Wolves in this "gorgeously written, fierce, political, personal, and deeply inspiring" (Michelle Tea) memoir about finding meaning, beauty, and power through a life in witchcraft. An initiation signals a beginning: a door opens and you step through. Traditional Wiccan initiations are usually brought into the craft through a ceremony with a High Priestess. But even though Amanda Yates Garcia's mother, a practicing witch herself, initiated her into the earth-centered practice of witchcraft when she was 13 years old, Amanda's real life as a witch only began when she underwent a series of spontaneous initiations of her own.

Descending into the underworlds of poverty, sex work, and misogyny, Initiated describes Amanda's journey to return to her body, harness her power, and create the magical world she longed for through witchcraft. Hailed by crows, seduced by magicians, and haunted by ancestors broken beneath the wheels of patriarchy, Amanda's quest for self-discovery and empowerment is a deep exploration of a modern witch's trials - healing ancient wounds, chafing against

cultural expectations, creating intimacy - all while on a mission to re-enchant the world. Peppered with mythology, tales of the goddesses and magical women throughout history, *Initiated* stands squarely at the intersection of witchcraft and feminism. With generosity and heart, this book speaks to the question: is it possible to live a life of beauty and integrity in a world that feels like it's dying? Declaring oneself a witch and practicing magic has everything to do with claiming authority and power for oneself, of taking back our planet in the name of Love. *Initiated* is both memoir and manifesto calling the magical people of the world to take up their wands: stand up, be brave, describe the world they want, then create it like a witch.

But the profile of Tea and Sympathy is about to change with the fortuitous arrival of Beatrice Dunn. When seventeen-year-old Beatrice leaves the safety of her village to answer an ad that reads "Respectable Lady Seeks Dependable Shop Girl. Those averse to magic need not apply," she has little inclination of what the job will demand of her. Beatrice doesn't know it yet, but she is no ordinary small-town girl; she has great spiritual gifts—ones that will serve as her greatest asset and also place her in grave danger. Under the tutelage of Adelaide and Eleanor, Beatrice comes to harness many of her powers, but not even they can prepare her for the evils lurking in the darkest corners of the city or the courage it will take to face them.

### Cat Call

In this wickedly funny cultural critique, the author of the critically acclaimed memoir and Hulu series *Shrill* exposes misogyny in the #MeToo era. THIS IS A WITCH HUNT.WE'RE WITCHES,AND WE'RE HUNTING YOU. From the moment powerful men started falling to the #MeToo movement, the lamentations began: this is feminism gone too far, this is injustice, this is a witch hunt. In *The Witches Are Coming*, firebrand author of the New York Times bestselling memoir and now critically acclaimed Hulu TV series *Shrill*, Lindy West, turns that refrain on its head. You think this is a witch hunt? Fine. You've got one. In a laugh-out-loud, incisive cultural critique, West extolls the world-changing magic of truth, urging readers to reckon with dark lies in the heart of the American

mythos, and unpacking the complicated, and sometimes tragic, politics of not being a white man in the twenty-first century. She tracks the misogyny and propaganda hidden (or not so hidden) in the media she and her peers devoured growing up, a buffet of distortions, delusions, prejudice, and outright bullsh\*t that has allowed white male mediocrity to maintain a death grip on American culture and politics-and that delivered us to this precarious, disorienting moment in history. West writes, "We were just a hair's breadth from electing America's first female president to succeed America's first black president. We weren't done, but we were doing it. And then, true to form-like the Balrog's whip catching Gandalf by his little gray bootie, like the husband in a Lifetime movie hissing, 'If I can't have you, no one can'-white American voters shoved an incompetent, racist con man into the White House." We cannot understand how we got here-how the land of the free became Trump's America-without examining the chasm between who we are and who we think we are, without fact-checking the stories we tell ourselves about ourselves and each other. The truth can transform us; there is witchcraft in it. Lindy West turns on the light.

"Witches are gathering." When most people

hear the word "witches," they think of horror films and Halloween, but to the nearly one million Americans who practice Paganism today, it's a nature-worshipping, polytheistic, and very real religion. So Alex Mar discovers when she sets out to film a documentary and finds herself drawn deep into the world of present-day witchcraft. *Witches of America* follows Mar on her immersive five-year trip into the occult, charting modern Paganism from its roots in 1950s England to its current American mecca in the San Francisco Bay Area; from a gathering of more than a thousand witches in the Illinois woods to the New Orleans branch of one of the world's most influential magical societies. Along the way she takes part in dozens of rituals and becomes involved with a wild array of characters: a government employee who founds a California priesthood dedicated to a Celtic goddess of war; American disciples of Aleister Crowley, whose elaborate ceremonies turn the Catholic mass on its head; second-wave feminist Wiccans who practice a radical separatist witchcraft; a growing "mystery cult" whose initiates trace their rites back to a blind shaman in rural Oregon. This sprawling magical community compels Mar to confront what she believes is possible-or hopes might be. With keen intelligence and wit, Mar illuminates the world of witchcraft while grappling in fresh and unexpected ways with the question underlying all faiths: Why do we choose to

believe in anything at all? Whether evangelical, Pagan priestess, or atheist, each of us craves a system of meaning to give structure to our lives. Sometimes we just find it in unexpected places.
