To exist within a species tipping toward extinction? How do we navigate the landscape of our own damage, received and inflicted, in such a way as to move through individual survival and into a common joy? The gift and the trap of the human body and its attachments to this world converge and dissolve in these poems of ecstatic music, animated rage, and wild, generative hope.

his contact at Rutherford Risk, hands him a photo of a transaction he recently facilitated in the Middle East. More curious to him, he's shown that photo while in the Red Room, the private security company's highly secure underground bunker, where eavesdropping is impossible and privacy ensured. Why all the cloak-and-dagger? Knox is pressured into accepting a job as an art broker in the mysterious Istanbul, a city situated on two continents where East meets West and Islam meets Christianity. It is a melting pot of spies, terrorists, and conflicting interests. Teamed with smart, quick, and fearless Grace Chu, Knox must navigate a murky operation, the only goal of which is to spend five minutes in the proximity of a man they've never met. Why? What can it possibly matter? And why are so many others bound and determined to see it never happens—at any cost?

takes small wisps of their life and tells a hauntingly, beautiful story. In *The Whereabouts of Eneas McNulty*, *On Canaan's Side*, and *The Secret Scripture*, he explores the themes of exile and the importance and difficulty of home. The problem with home for all of these characters is the fact that none of them can fully return. In the first chapter, I focus on Eneas' thought of home, which is the physical land of Ireland. The next chapter is Lilly whose home is the community that surrounds her, but she latches onto these people as her only survival, her only chance to succeed in life. The last chapter, Roseanne, explores how she deals with only having the home of her embodied memories. Living in an insane asylum she has a different experience than the other two characters, since she is the only one who physically stays in Ireland. However, all three never succeed in returning home and are left with a disillusioned idea of Ireland.

An unforgettable account of a quietly remarkable life, Robert Brown's memoir takes readers behind the scenes of pivotal moments from the 20th century, where the lessons he learned at his grandmother's knee helped him shape America as we know it today. Called "a world-class power broker" by the Washington Post, Robert Brown has been a sought-after counselor for an impressive array of the famous and powerful, including every American president since John F. Kennedy. But as a child born into poverty in the 1930s, Robert was raised by his grandmother to think differently about success. For example, "The best way to influence others is to be helpful," she told him. And, "You can't go wrong by doing right." Fueled by these lessons on humble, principled service, Brown went on to play a pivotal,

Kennedy; helping the white corporate leadership at Woolworth integrate their lunch counters; channeling money from American businesses to the Civil Rights movement; accompanying Coretta Scott King, at her request, to Memphis the day after her husband had been shot; advising Richard Nixon on how to support black entrepreneurship; becoming the only person allowed to visit Nelson Mandela in Pollsmoor prison in Cape Town. Who of us cannot remember the pain and humiliation of being rejected by our classmates? However thick-skinned or immune to such assaults we may become as adults, the memory of those early exclusions is as palpable to each of us today as it is common to human experience. We remember the uncertainty of separating from our home and entering school as strangers and, more than the relief of making friends, we recall the cruel moments of our own isolation as well as those children we knew were destined to remain strangers. In this book Vivian Paley employs a unique strategy to probe the moral dimensions of the classroom. She departs from her previous work by extending her analysis to children through the fifth

grade, all the while weaving remarkable fairy tale into her narrative description. Paley introduces a new rule- You can't say you can't play-to her kindergarten classroom and solicits the opinions of older children regarding the fairness of such a rule. We hear from those who are rejected as well as those who do the rejecting. One child, objecting to the rule, says, It will be fairer, but how are we going to have any fun? Another child defends the principle of classroom bosses as a more benign way of excluding the unwanted. In a brilliant twist, Paley mixes fantasy and reality, and introduces a new voice into the debate: Magpie, a magical bird, who brings lonely people to a place where a full share of the sun is rightfully theirs. Myth and morality begin to proclaim the same message and the schoolhouse will be the crucible in which the new order is tried. A struggle ensues and even the Magpie stories cannot avoid the scrutiny of this merciless pack of social philosophers who will not be easily caught in a morality tale. You Can't Say You Can't Play speaks to some of our most deeply held beliefs. Is exclusivity part of human nature? Can we legislate fairness and still nurture creativity and individuality? Can children be freed from the habit of rejection? These are some of the questions. The answers are to be found in the words of Paley's schoolchildren and in the wisdom of their teacher who respectfully listens to them.
