On the Shortness of Life: Life Is Long if You Know How to Use It

Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. With its wry portrayal of a shallow, materialistic 'leisure class' obsessed by clothes, cars, consumer goods and climbing the social ladder, this withering satire on modern capitalism is as pertinent today as when it was written over a century ago.

Decline of the English Murder

As a critic, George Orwell cast a wide net. Equally at home discussing Charles Dickens and Charlie Chaplin, he moved back and forth across the porous borders between essay and journalism, high art and low. A frequent commentator on literature, language, film, and drama throughout his career, Orwell turned increasingly to the critical essay in the 1940s, when his most important experiences were behind him and some of his most incisive writing lay ahead. All Art Is Propaganda follows Orwell as he demonstrates in piece after piece how intent analysis of a work or body of work gives rise to trenchant aesthetic and philosophical commentary. With masterpieces such as "Politics and the English Language" and "Rudyard Kipling" and gems such as "Good Bad Books," here is an unrivaled education in, as George Packer puts it, "how to be interesting, line after line."

Writings from the Zen Masters

How friendship, European literature, and a charismatic professor defy war, oppression, and the absurd
Set in 1980s South Korea amid the

tremors of political revolution, *I'll Be Right There* follows Jung Yoon, a highly literate, twenty-something woman, as she recounts her tragic personal history as well as those of her three intimate college friends. When Yoon receives a distressing phone call from her ex-boyfriend after eight years of separation, memories of a tumultuous youth begin to resurface, forcing her to re-live the most intense period of her life. With profound intellectual and emotional insight, she revisits the death of her beloved mother, the strong bond with her now-dying former college professor, the excitement of her first love, and the friendships forged out of a shared sense of isolation and grief. Yoon's formative experiences, which highlight both the fragility and force of personal connection in an era of absolute uncertainty, become immediately palpable. Shin makes the foreign and esoteric utterly familiar: her use of European literature as an interpreter of emotion and experience bridges any gaps between East and West. Love, friendship, and solitude are the same everywhere, as this book makes poignantly clear.

The Sense of Style

The Effects of Noise on Man covers the techniques for the evaluation of environmental noise in terms of its effects on human. The book provides the fundamental definitions of sound, its measurement, and concepts of the basic functioning, and the attributes of the auditory system. The text also presents along with their experimental basis, procedures for estimating from physical measures of noise its effects on man's auditory system and speech communications. The last part of the book is devoted to man's nonauditory system responses and includes information about the effects of noise on work performance, sleep, feelings of pain, vision, and blood circulation.

On Friendship

These are unique stories of timeless wisdom and understanding from the Zen Masters. With rich and fascinating tales of swords, tigers, tea, flowers and dogs, the writings of the Masters challenge every perception - and seek to bring all readers closer to enlightenment. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

Why I Write

In this bestselling compilation of essays, written in the clear-eyed, uncompromising language for which he is famous, Orwell discusses with vigor such diverse subjects as his boyhood schooling, the Spanish Civil War, Henry Miller, British imperialism, and the profession of writing.

An Apology for Idlers, and Other Essays

Bertrand Arthur William Russell, (1872 - 1970) was a British philosopher, logician, mathematician, historian, social critic and political activist. At various points in his life he considered himself a liberal, a socialist, and a pacifist, but he also admitted that he had never been any of these in any profound sense. Russell led the British "revolt against idealism" in the early 20th century. He is considered one of the founders of analytic philosophy along with his predecessor Gottlob Frege, colleague G. E. Moore, and his protege Ludwig Wittgenstein. He is widely held to be one of the 20th century's premier logicians. His work has had a considerable influence on logic, mathematics, set theory, linguistics, artificial intelligence, cognitive science, computer science (see type theory and type system), and philosophy, especially philosophy of language, epistemology, and metaphysics. In this book: *The Problems of Philosophy* *The Analysis of Matter* *Mysticism and Logic* and *Other Essays* *Political Ideals* *The Problem of China* *Proposed Roads To Freedom* *The Practice and Theory of Bolshevism* *Our Knowledge of the External World as a Field for Scientific Method in Philosophy*

Where I Lived, and What I Lived For

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — *Irish Times*

I'll Be Right There

Essays by the author of *1984* on topics from "remembrances of working in a bookshop [to] recollections of fighting in the Spanish Civil War" (*Publishers Weekly*). George Orwell was first and foremost an essayist, producing throughout his life an extraordinary array of short nonfiction that reflected—and illuminated—the fraught times in which he lived. "As soon as he began to write something," comments George Packer in his foreword, "it was as natural for Orwell to propose, generalize, qualify, argue, judge—in short, to think—as it was for Yeats to versify or Dickens to invent." *Facing Unpleasant Facts* charts Orwell's development as a master of the narrative-essay form and unites such classics as "Shooting an Elephant" with lesser-known journalism and passages from his wartime diary. Whether detailing the horrors of Orwell's boyhood in an English boarding school or bringing to life the sights, sounds, and smells of the Spanish Civil War, these essays weave together the personal and the political in an unmistakable style that is at once plainspoken and brilliantly complex. "Best known for his late-career classics *Animal Farm* and *1984*, George Orwell—who used his given name, Eric Blair, in the earliest pieces of this collection aimed at

the aficionado as well as the general reader—was above all a polemicist of the first rank. Organized chronologically, from 1931 through the late 1940s, these in-your-face writings showcase the power of this literary form.” —Publishers Weekly, starred review

The Evils of Revolution

Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. In these timeless and witty essays George Orwell explores the English love of reading about a good murder in the papers (and laments the passing of the heyday of the 'perfect' murder involving class, sex and poisoning), as well as unfolding his trenchant views on everything from boys' weeklies to naughty seaside postcards to being arrested in the East End.

On Solitude

The first Penguin anthology of Japanese haiku, in vivid new translations by Adam L. Kern. Now a global poetry, the haiku was originally a Japanese verse form that flourished from the sixteenth to nineteenth centuries. Although renowned for its brevity, usually running three lines long in seventeen syllables, and by its use of natural imagery to make Zen-like observations about reality, in fact the haiku is much more: it can be erotic, funny, crude and mischievous. Presenting over a thousand exemplars in vivid and engaging translations, this anthology offers an illuminating introduction to this widely celebrated, if misunderstood, art form. Adam L. Kern's new translations are accompanied here by the original Japanese and short commentaries on the poems, as well as an introduction and illustrations from the period.

On Natural Selection

Blending intellectual speculation with anecdote and personal reflection, the Renaissance thinker and writer Montaigne pioneered the modern essay. This selection contains his idiosyncratic and timeless writings on subjects as varied as the virtues of solitude, the power of the imagination, the pleasures of reading, the importance of sleep and why we sometimes laugh and cry at the same things. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

On Art and Life

Throughout history, some books have changed the world. They have transformed the way we see ourselves—and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives—and destroyed them. Now, Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization, and helped make us who we are. Penguin's Great Ideas series features twelve groundbreaking works by some of history's most prodigious thinkers, and each volume is beautifully packaged with a unique type-drive design that highlights the bookmaker's art. Offering great literature in great packages at great prices, this series is ideal for those readers who want to explore and savor the Great Ideas that have shaped the world.

The Great Penguin Rescue

Twenty-Five Great Essays provides an outstanding collection of classic and contemporary writing as part of Longman's Penguin Academics Series of low-cost, high-quality offerings intended for use in introductory college courses. This brief reader features a collection of eminently teachable and rewarding essays for today's college composition courses. Combining commonly taught, classic essays with the best of contemporary writing, Twenty-Five Great Essays provides flexible options for every composition classroom. The selections are diverse in both subject matter and authorship. They have been chosen as models of good writing, as well as for their usefulness as springboards for student writing. An introductory section informs students about the characteristics of the essay form and offers instruction both on reading essays critically and on the process of writing effective essays.

THE ELEMENTS OF STYLE

A masterful tale set in post-Soviet Kiev that's both darkly-funny and ominous In the widely hailed prequel to Penguin Lost, aspiring writer Viktor Zolotaryov leads a down-and-out life in poverty-and-violence-wracked Kiev—he's out of work and his only friend is a penguin, Misha, that he rescued when the local zoo started getting rid of animals. Even more nerve-wracking: a local mobster has taken a shine to Misha and wants to keep borrowing him for events. But Viktor thinks he's finally caught a break when he lands a well-paying job at the Kiev newspaper writing "living obituaries" of local dignitaries—articles to be filed for use when the time comes. The only thing is, it seems the time always comes as soon as Viktor writes the article. Slowly understanding that his own life may be in jeopardy, Viktor also realizes that the only thing that might be keeping him alive is his penguin.

The Penguin Classics Book

Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization,

and helped make us who we are. Whether puncturing the lies of politicians, wittily dissecting the English character or telling unpalatable truths about war, Orwell's timeless, uncompromising essays are more relevant, entertaining and essential than ever in today's era of spin.

Why I Write

A rich compilation of the previously uncollected Russian and English prose and interviews of one of the twentieth century's greatest writers, edited by Nabokov experts Brian Boyd and Anastasia Tolstoy. "I think like a genius, I write like a distinguished author, and I speak like a child": so Vladimir Nabokov famously wrote in the introduction to his volume of selected prose, *Strong Opinions*. *Think, Write, Speak* follows up where that volume left off, with a rich compilation of his uncollected prose and interviews, from a 1921 essay about Cambridge to two final interviews in 1977. The chronological order allows us to watch the Cambridge student and the fledgling Berlin reviewer and poet turn into the acclaimed Paris émigré novelist whose stature brought him to teach in America, where his international success exploded with *Lolita* and propelled him back to Europe. Whether his subject is Proust or Pushkin, the sport of boxing or the privileges of democracy, Nabokov's supreme individuality, his keen wit, and his alertness to the details of life illuminate the page.

Books V. Cigarettes

A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babbette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

All Art Is Propaganda

Penguin Classics is the largest and best-known classics imprint in the world. From *The Epic of Gilgamesh* to the poetry of the First World War, and covering all the greatest works of fiction, poetry, drama, history and philosophy in between, this reader's companion encompasses 500 authors, 1,200 books and 4,000 years of world literature. Stuffed full of stories, author biographies, book summaries and recommendations, and illustrated with thousands of historic Penguin Classic covers, this is an exhilarating and comprehensive guide for anyone who wants to explore and discover the best books ever written.

Politics and the English Language

'A problem of space first of all, then a problem of order' One of the most singular and extravagant imaginations of the twentieth century, the novelist and essayist Georges Perec was a true original who delighted in wordplay, puzzles, taxonomies and seeing the extraordinary in the everyday. In these virtuoso writings about books and language, he discusses different ways of reading, a list of the things he really must do before he dies and the power of words to overcome the chaos of the world. One of twenty new books in the bestselling Penguin Great Ideas series. This new selection showcases a diverse list of thinkers who have helped shape our world today, from anarchists to stoics, feminists to prophets, satirists to Zen Buddhists.

The First Ten Books

Why I Am So Wise

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Why I Write

Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. Perhaps the most widely read thinker of all time, Confucius transformed Chinese philosophy with his belief that the greatest goal in life was pursuit of 'The Way': a search for virtue not as a means to rewards in this world or the next, but as the pinnacle of human existence.

Natural Selection

White Noise

Over the course of his career, George Orwell wrote about many things, but no matter what he wrote the goal was to get at the fundamental truths of the world. He had no place for dissemblers, liars, conmen, or frauds, and he made his feelings well-known. In *Orwell on Truth*, excerpts from across Orwell's career show how his writing and worldview developed over the decades, profoundly shaped by his experiences in the Spanish Civil War, and further by World War II and the rise of totalitarian states. In a world that seems increasingly like one of Orwell's dystopias, a willingness to speak truth to power is more important than ever. With *Orwell on Truth*, readers get a collection of both powerful quotes and the context for them.

The Penguin Book of Migration Literature

Originally written around 49 AD for his father-in-law Paulinus, Seneca here brings up many Stoic principles on the nature of time, namely that people waste much of it in meaningless pursuits. According to Seneca, nature gives people enough time to do what is really important and it is up to the individual to allot it properly.

The Christians and the Fall of Rome

Written at a time when most of Europe supported the French Revolution, Edmund Burke's prescient and, at the time, controversial denunciation of its mob rule predicted the Terror, began the modern conservative tradition and still serves as a warning to those who seek to reshape societies through violence. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

Bertrand Russell, Collection

The Elements of Style is a study guide for the development of writing style by William Strunk Jr., a professor of English at Cornell University. It was later finished by his student, Elwyn Brooks White. Now it is commonly known as "the study guide by Strunk and White". In short, this book is for someone who wants to become a writer. *The Elements of Style* is some kind of examples' collection of all kinds of styles of writing very different works. It comprises eight "elementary rules of usage", ten "elementary principles of composition", "a few matters of form", a list of 49 "words and expressions commonly misused", and a list of 57 "words often misspelled".

Death and the Penguin

Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization, and helped make us who we are. Penguin's Great Ideas series features twelve groundbreaking works by some of history's most prodigious thinkers, and each volume is beautifully packaged with a unique type-drive design that highlights the bookmaker's art. Offering great literature in great packages at great prices, this series is ideal for those readers who want to explore and savor the Great Ideas that have shaped the world.

Think, Write, Speak

Throughout history, some books have changed the world. They have transformed the way we see ourselves—and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives—and destroyed them. Now, Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization, and helped make us who we are. Penguin's Great Ideas series features twelve groundbreaking works by some of history's most prodigious thinkers, and each volume is beautifully packaged with a unique type-drive design that highlights the bookmaker's art. Offering great literature in great packages at great prices, this series is ideal for those readers who want to explore and savor the Great Ideas that have shaped the world. The Inner Life is taken from Thomas à Kempis's The Imitation of Christ, a classic Christian devotional that has taught and inspired generations.

Orwell on Truth

A group of successful authors offer encouragement and guidance to aspiring writers by explaining why and how they work at writing, featuring contributions from Jennifer Egan, Sue Grafton, David Baldacci, and Jodi Picoult.

Brief Notes on the Art and Manner of Arranging One's Books

Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. Thoreau's account of his solitary and self-sufficient home in the New England woods remains an inspiration to the environmental movement - a call to his fellow men to abandon their striving, materialistic existences of 'quiet desperation' for a simple life within their means, finding spiritual truth through awareness of the sheer beauty of their surroundings.

The Inner Life

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his

descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Conspicuous Consumption

"Charming and erudite," from the author of Enlightenment Now, "The wit and insight and clarity he brings . . . is what makes this book such a gem." —Time.com Why is so much writing so bad, and how can we make it better? Is the English language being corrupted by texting and social media? Do the kids today even care about good writing—and why should we care? From the author of The Better Angels of Our Nature and Enlightenment Now. In this entertaining and eminently practical book, the cognitive scientist, dictionary consultant, and New York Times–bestselling author Steven Pinker rethinks the usage guide for the twenty-first century. Using examples of great and gruesome modern prose while avoiding the scolding tone and Spartan tastes of the classic manuals, he shows how the art of writing can be a form of pleasurable mastery and a fascinating intellectual topic in its own right. The Sense of Style is for writers of all kinds, and for readers who are interested in letters and literature and are curious about the ways in which the sciences of mind can illuminate how language works at its best.

The Penguin Book of Haiku

The first global anthology of migration literature featuring works by Mohsin Hamid, Zadie Smith, Marjane Satrapi, Salman Rushdie, and Warsan Shire, with a foreword by Edwidge Danticat, author of Everything Inside A Penguin Classic Every year, three to four million people move to a new country. From war refugees to corporate expats, migrants constantly reshape their places of origin and arrival. This selection of works collected together for the first time brings together the most compelling literary depictions of migration. Organized in four parts (Departures, Arrivals, Generations, and Returns), The Penguin Book of Migration Literature conveys the intricacy of worldwide migration patterns, the diversity of immigrant experiences, and the commonalities among many of those diverse experiences. Ranging widely across the eighteenth through twenty-first centuries, across every continent of the earth, and across multiple literary genres, the anthology gives readers an understanding of our rapidly changing world, through the eyes of those at the center of that change. With thirty carefully selected poems, short stories, and excerpts spanning three hundred years and twenty-five countries, the collection brings together luminaries, emerging writers, and others who have earned a wide following in their home countries but have been less recognized in the Anglophone world. Editor of the volume Dohra Ahmad provides a contextual introduction, notes, and suggestions for further exploration.

A Collection of Essays

From the 100-part Penguin Great Ideas series comes a rumination on relationships, courtesy of one of the most influential French Renaissance philosophers. Michel de Montaigne was the originator of the modern essay form; in these diverse pieces he expresses his views on friendship, contemplates the idea that man is no different from any animal, argues that all cultures should be respected, and attempts, by an exploration of himself, to understand the nature of humanity. Penguin Great Ideas: Throughout history, some books have changed the world. They have transformed the way we see ourselves—and each other. They have inspired debate, dissent, war, and revolution. They have enlightened, outraged, provoked, and comforted. They have enriched lives—and destroyed them. Now Penguin Great Ideas brings you the works of the great thinkers, pioneers, radicals, and visionaries whose ideas shook civilization and helped make us who we are. Other titles in the series include Niccolò Machiavelli's *The Prince*, Thomas Paine's *Common Sense*, and Charles Darwin's *On Natural Selection*.

The Effects of Noise on Man

More information to be announced soon on this forthcoming title from Penguin USA.

Twenty-five Great Essays

Beginning with a dilemma about whether he spends more money on reading or smoking, George Orwell's entertaining and uncompromising essays go on to explore everything from the perils of second-hand bookshops to the dubious profession of being a critic, from freedom of the press to what patriotism really means.

Why We Write

Recounts the rescue of penguins during the 2000 Cape Town oil spill, documenting the efforts of 12,500 international volunteers to clean, nurse, and re-release nearly all of the endangered birds.

Facing Unpleasant Facts
